VOLUME 36: SUBJECT INDEX – MAIN HEADINGS

Achalasia, Impaired gastric relaxation in patients with achalasia, **363**

Acid, Effect of topical oesophageal acidification on human salivary and oesophageal alkali secretion, **649**

Acid inhibition, Effect of *Helicobacter pylori* status on intragastric pH during treatment with omeprazole, **539**

Acid reflux, Precipitating causes of acid reflux episodes in ambulant patients with gastro-oesophageal reflux disease, **505**

Acromegaly, Effect of octreotide on fasting gall bladder emptying, antroduodenal motility, and motilin release in acromegaly, **755**

Acupuncture, Relation of acupuncture and vagal gastric acid secretion: *correspondence*, **800**

Adenine arabinoside, Adenine arabinoside 5'-monophosphate in patients with chronic hepatitis B: comparison of the efficacy in patients with high and low viral replication, **422**

Adenomas, Variables associated with the risk of colorectal adenomas in asymptomatic patients with a family history of colorectal cancer, **385**

Adenosine deaminase activity, Ascitic fluid gamma interferon concentrations and adenosine deaminase activity in tuberculous peritonitis, **419**

Adhesion molecules
- Adhesion molecule expression in primary sclerosing cholangitis and primary biliary cirrhosis, **604**
- Adhesion molecules in inflammatory bowel disease, **724**
- Constitutive and cytokine induced expression of HLA molecules, secretory component, and intercellular adhesion molecule-1 is modulated by butyrate in the colonic epithelial cell line HT-29, **737**
- Current concepts in metastasis: *correspondence*, **153**
- Expression of adhesion molecules in human Peyer's patches: *correspondence*, **944**
- Increased expression of cell adhesion molecule P-selectin in active inflammatory bowel disease, **411**
- Serum intercellular adhesion molecule-1 levels in chronic hepatitis C: association with disease activity and response to interferon alpha, **599**
- Soluble adhesion molecules in immune mediated liver disease: *leading article*, **806**

Adhesive properties, Expression of binding of plasminogen, thrombospondin, vitronectin, and fibrinogen, and adhesive properties by *Escherichia coli* strains isolated from patients with colonic diseases, **401**

AIDS, Natural history and prognosis of diarrhoea of unknown cause in patients with acquired immunodeficiency syndrome (AIDS), **283**

Alcohol, Secretin induces a paradoxical sphincter of oddi hyperpressure effect in alcoholic patients without pancreatic disease, **A477**

Alcohol consumption, Increased serum pancreatitis associated protein (PAP) concentration after longterm alcohol consumption: further evidence for regular subclinical pancreatic damage after heavy drinking? **117**

Alkaline phosphatase, A variant alkaline phosphatase found in a case of gastric carcinoma with super bone scan, **299**

Alpha$_1$ antitrypsin, Diagnostic value of a guaiac occult blood test and faecal α_1 antitrypsin, **87**

Alpha$_1$ antitrypsin deficiency, Increased PiZ gene frequency for α_1 antitrypsin in patients with genetic haemochromatosis, **922**

Amino acids
- Chloride dependent amino acid transport in the human small intestine, **215**
- Controlled trial of oligopeptide versus amino acid diet in treatment of active Crohn's disease, **60**
- Somatostatin prevents the postoperative increases in plasma amino acid clearance and urea synthesis after elective cholecystectomy, **766**

5 Aminolaevulinic acid, Photosensitisation and photodynamic therapy of oesophageal, duodenal, and colorectal tumours using 5 aminolaevulinic acid induced protoporphyrin IX, **67**

5-Aminosalicylic acid
- An alternative view of 5-ASA formulations: *correspondence*, **639**
- New salicylates as maintenance treatment in ulcerative colitis: *correspondence*, **640**

Amoebiasis, Diagnosis of invasive amoebiasis: renaissance of the morphology era: *correspondence*, **800**

Amoxycillin, Detection of the intragastric sites at which *Helicobacter pylori* evades treatment with amoxycillin and cimetidine, **670**

Ampullary cancer, Collagenase, stromelysin, and tissue inhibitor of metalloproteinase expression in pancreatic and ampullary cancer, **A477**

Ampullary carcinoma, Photodynamic therapy for malignant tumours of the ampulla of Vater, **853**

Anaesthesia, Prospective audit of upper gastrointestinal endoscopy in two regions of England: safety, staffing, and sedation methods, **462**

Anorectal physiology, Preservation of complete anal sphincteric proprioception in restorative proctocolectomy: the inhibitory reflex and fine control of continence need not be impaired, **902**

Antacids, High pH reduces DNA damage caused by bile from patients with familial adenomatous polyposis: antacids may attenuate duodenal polyposis, **918**

Anticoagulant drugs, Acute gastrointestinal haemorrhage in patients treated with anticoagulant drugs: *leading article*, **483**

Antineutrophil cytoplasmic antibodies, P-ANCA in monozygotic twins with inflammatory bowel disease, **887**

Antroduodenal motility, Effect of octreotide on fasting gall bladder emptying, antroduodenal motility, and motilin release in acromegaly, **755**

APC gene, Novel germline APC gene mutation in a large familial adenomatous polyposis kindred displaying variable phenotypes, **731**

Artificial liver, Artificial livers – what's keeping them? *leading article*, **168**

Audit
- Indications, methods, and outcomes of percutaneous liver biopsy in England and Wales: an audit by the British Society of Gastroenterology and the Royal College of Physicians of London, **437**
- Pancreatic carcinoma: an audit of treatment, survival, and quality of life, **A479**
- Prospective audit of upper gastrointestinal endoscopy in two regions of England: safety, staffing, and sedation methods, **462**

Australia, Low prevalence of primary biliary cirrhosis in Victoria, Australia, **927**

Autoimmune gastritis, Functional defect of T cells in autoimmune gastritis, **171**

Autoimmune hepatitis type 2, Liver cytosolic 1 antigen-antibody system in type 2 autoimmune hepatitis and hepatitis C virus infection, **749**

Autoimmune thyroid disease, Association between coeliac disease and autoimmune thyroid disease: *correspondence*, **475**

Autoimmunity, Autoimmunity and chronic pancreatitis: *correspondence*, **799**

Azathioprine, Fatal infectious mononucleosis: a severe complication in the treatment of Crohn's disease with azathioprine, **311**

Bacterial colitis, Pathogenesis of bacterial colitis: *correspondence*, **154**

Bacterial translocation, Bacterial translocation in the rat model of lectin induced diarrhoea, **379**

Barium examination, Gastroenterology in the Trent Region in 1992 and a review of changes since 1975, **468**

Barrett's oesophagus, Twenty to 40 year follow up of infantile hiatal hernia, **809**

Bicarbonate
- Effect of topical oesophageal acidification on human salivary and oesophageal alkali secretion, **649**
- Muscarinic M_1 receptor inhibition reduces gastroduodenal bicarbonate secretion and promotes gastric prostaglandin E_2 synthesis in healthy volunteers, **528**

Bile acids, Unconjugated secondary bile acids in the serum of patients with colorectal adenomas, **268**

Bile duct obstruction, A three year follow up of self expanding metal stents in the endoscopic palliation of longterm survivors with malignant biliary obstruction, **618**

Bile duct stones, Role of biliary stenting in the management of bile duct stones in the elderly: *leading article*, **485**

Biliary cancer, Antibodies against p53 protein in serum of patients with benign or malignant pancreatic and biliary diseases, **455**

Biliary lithiasis, Is biliary lithiasis associated with pancreatographic changes? **761**

Biliary pancreatitis, Current views on the pathophysiology of acute biliary pancreatitis: *leading article*, **803**

Biliary stenting
- Retained common bile duct stones after endoscopic sphincterotomy: temporary and longterm treatment with biliary stenting, **446**
- Role of biliary stenting in the management of bile duct stones in the elderly: *leading article*, **485**

Biopsy, Indications, methods, and outcomes of percutaneous liver biopsy in England and Wales: an audit by the British Society of Gastroenterology and the Royal College of Physicians of London, **437**

Book reviews
Chen JZ, McCallum RW. Electrogastrophy – principles and applications, **802**
Cotton PB, Tytgat GNJ, Williams CB, *editors*. Annual of gastrointestinal endoscopy, **156**
Drossman DA, *editor*. Functional gastrointestinal disorders, **320**
Eastwood GL, Avunduk C. Manual of gastroenterology, 2nd ed, **948**
Janowitz HD. Indigestion, **948**
Kamm MA, *editor*. Constipation, **476**
Morris AI, Yiannakou JY. Illustrated case histories: gastroenterology, **320**
Phillips RKS, Spigelman AD, Thomson JPS, *editors*. Familial adenomatous polyposis and other polyposis syndromes, **947**
Reesink HW, *editor*. Hepatitis C virus. Current studies in hematology and blood transfusion, **320**
Targan SR, Shanahan F, *editors*. Inflammatory bowel disease. From bench to bedside, **156**
British Society of Gastroenterology
President 1994-95, Ian Bouchier, **151**
Presidential review of the year's activity 1993-4, **317**
Butyrate
Colonic epithelium is diffusely abnormal in ulcerative colitis and colorectal cancer, **857**
Constitutive and cytokine induced expression of HLA molecules, secretory component, and intercellular adhesion molecule-1 is modulated by butyrate in the colonic epithelial cell line HT-29, **737**

13C-urea breath test, Effect of a test meal on the intragastric distribution of urea in the ^{13}C-urea breath test for *Helicobacter pylori*, **337**
CA 125, Increased CA 125 in a patient with tuberculous peritonitis: case report and review of published works, **303**
Canada, Gastroenterological practice in Canada, **318**
Cancer surveillance, Cancer surveillance in ulcerative colitis: *correspondence*, **801**
Capsaicin, Effect of capsaicin and chilli on ethanol induced gastric mucosal injury in the rat, **664**
Cathepsin D, Translocation of gliadin into HLA-DR antigen containing lysosomes in coeliac disease, **703**
CD44
Colorectal tumorigenesis: *correspondence*, **801**
Expression of mutant p53 protein and CD44 variant proteins in colorectal tumorigenesis, **76**
Cell cycle, DNA flow cytometric evaluation of cell cycle distribution in ulcerative colitis: a proposed method for assessing severity of disease, **50**
Cell division, Gastrin and the growth of the gastrointestinal tract, **203**
Cell kinetics, Stimulation and inhibition of proliferation in the small intestinal crypts of the mouse after in vivo administration of growth factors, **864**
Cell lines, Characterisation of the influence of anti-gastrin, anti-epidermal growth factor, anti-oestradiol, and anti-luteinising hormone releasing hormone antibodies on the proliferation of 27 cells lines from the gastrointestinal tract, **220**
Cell proliferation
Cell proliferation in the gastric corpus in *Helicobacter pylori* associated gastritis and after gastric resection, **351**
Cell proliferation in *Helicobacter pylori* associated gastritis and the effect of eradication therapy, **346**
Colonic cell proliferation in two different ethnic groups with contrasting incidence of colon cancer: is there a difference in carcinogenesis? **691**
Proliferative compartment deregulation in the non-neoplastic colonic epithelium of familial adenomatous polyposis, **391**
Children
Relation between gastric emptying rate and energy intake in children compared with adults, **183**
Twenty to 40 year follow up of infantile hiatal hernia, **809**
Chilli, Effect of capsaicin and chilli on ethanol induced gastric mucosal injury in the rat, **664**
Chinese herbs, Hepatitis induced by traditional Chinese herbs: possible toxic components, **146**
Chlorides, Chloride dependent amino acid transport in the human small intestine, **215**
Cholecystectomy
Laparoscopic cholecystectomy: *leading article*, **161**
Prevalence of *Helicobacter pylori* in patients with gall stones before and after cholecystectomy, **675**
Somatostatin prevents the postoperative increases in plasma amino acid clearance and urea synthesis after elective cholecystectomy, **766**
Cholecystokinin
Effect of cholecystokinin on lower oesophageal sphincter pressure and transient lower oesophageal sphincter relaxations in humans, **39**
Effect of predigested fat on intestinal stimulation of plasma cholecystokinin and gall bladder motility in coeliac disease, **17**
Satiety effects of a physiological dose of cholescystokinin in humans, **176**
Cimetidine, Detection of the intragastric sites at which *Helicobacter pylori* evades treatment with amoxycillin and cimetidine, **670**
Cirrhosis
Energy expenditure and substrate metabolism in patients with cirrhosis of the liver: effects of the pattern of food intake, **110**
Portal and systemic haemodynamic response to acute and chronic administration of low and high dose isosorbide-5-mononitrate in patients with cirrhosis, **104**
Coeliac disease
Analysis of crypt cell proliferation in coeliac disease using MI-B1 antibody shows and increase in growth function, **22**
Association between coeliac disease and autoimmune thyroid disease: *correspondence*, **475**
Effect of predigested fat on intestinal stimulation of plasma cholecystokinin and gall bladder motility in coeliac disease, **17**
Histological changes in small bowel mucosa induced by gliadin sensitive T lymphocytes can be blocked by anti-interferon gamma antibody, **874**
Intestinal proliferation in coeliac disease: looking into the crypt: *leading article*, **321**
Novel insights into human intestinal epithelial cell proliferation in health and disease using confocal microscopy, **369**
Osteoporosis in treated adult coeliac disease, **710**
Seroconversion of reticulin autoantibodies predicts coeliac disease in insulin dependent diabetes mellitus, **239**
Translocation of gliadin into HLA-DR antigen containing lysosomes in coeliac disease, **703**
Wheat deficient in gliadins: promising tool for treatment of coeliac disease, **375**
Colitis
Pathogenesis of bacterial colitis: *correspondence*, **154**
Selective inhibition of fatty acid oxidation in colonocytes by ibuprofen: a cause of colitis? **55**
Colitis ulcerosa, Colitis ulcerosa complicated by malignant lymphoma: case report and analysis of published works, **306**
Collagen, Microscopic colitis syndrome, **880**
Collagenase, Collagenase, stromelysin, and tissue inhibitor of metalloproteinase expression in pancreatic and ampullary cancer, **A477**
Colon
Differential regional effects of octreotide on human gastrointestinal motor function, **743**
Immune regulation of human colonic electrolyte transport in vitro, **395**
Microscopic colitis syndrome, **880**
Colon cancer
Colonic cell proliferation in two different ethnic groups with contrasting incidence of colon cancer: is there a difference in carcinogenesis? **691**
NSAIDs and the chemoprevention of colon and oesophageal cancer: *correspondence*, **153**
Colonic cell proliferation
Colonic cell proliferation in two different ethnic groups with contrasting incidence of colon cancer: is there a difference in carcinogenesis? **691**
Markers to study human colonic cell proliferation: *correspondence*, **152**
Colonic disease, Expression of binding of plasminogen, thrombospondin, vitronectin, and fibrinogen, and adhesive properties by *Escherichia coli* strains isolated from patients with colonic diseases, **401**
Colonic epithelial cell line, Constitutive and cytokine induced expression of HLA molecules, secretory component, and intercellular adhesion molecule-1 is modulated by butyrate in the colonic epithelial cell line HT-29, **737**
Colonic epithelium, Colonic epithelium is diffusely abnormal in ulcerative colitis and colorectal cancer, **857**
Colonic mucin synthesis, Colonic mucin synthesis is increased by sodium butyrate, **93**
Colonic transit
Relationships between defecographic findings, rectal emptying, and colonic transit time in constipated patients, **907**
Reporting simplified colonic transit studies using radionuclides: clinician friendly reports, **274**
Colonoscopy, First clinical results with a real time, electronic imager as an aid to colonoscopy, **913**
Colorectal cancer
1,25-dihydroxyvitamin D_3 and retinoid X receptor expression in human colorectal neoplasms, **255**
A new class of colorectal cancer gene: *leading article*, **641**
A screening clinic for relatives of patients with colorectal cancer in a district general hospital, **90**
Analysis of Ha-ras 1 allele frequencies in hereditary non-polyposis colorectal cancer, **382**
Colonic epithelium is diffusely abnormal in ulcerative colitis and colorectal cancer, **857**
Colorectal cancer screening in asymptomatic populations, **590**
Death from malignant disease after surgery for duodenal ulcer: *correspondence*, **475**

Detection of c-Ki-*ras* mutations in faecal samples from sporadic colorectal cancer patients, **81**
Unconjugated secondary bile acids in the serum of patients with colorectal adenomas, **268**
Variables associated with the risk of colorectal adenomas in asymptomatic patients with a family history of colorectal cancer, **385**
Colorectal tumorigenesis
Colorectal tumorigenesis: *correspondence*, **801**
Expression of mutant p53 protein and CD44 variant proteins in colorectal tumorigenesis, **76**
Common bile duct stones, Retained common bile duct stones after endoscopic sphincterotomy: temporary and longterm treatment with biliary stenting, **446**
Confocal microscopy, Novel insights into human intestinal epithelial cell proliferation in health and disease using confocal microscopy, **369**
Conjugated/unconjugated bile acid fraction, Unconjugated secondary bile acids in the serum of patients with colorectal adenomas, **268**
Constipation
Hereditary proctalgia fugax and constipation: report of a second family, **581**
Relationships between defecographic findings, rectal emptying, and colonic transit time in constipated patients, **907**
Scintigraphic measurement of ileocaecal transit in irritable bowel syndrome and chronic idiopathic constipation, **585**
Correction, **157**
Corticosteroid resistance, Cyclosporin in the treatment of corticosteroid resistant autoimmune chronic active hepatitis, **459**
Crohn's disease
Controlled trial of oligopeptide versus amino acid diet in treatment of active Crohn's disease, **60**
Duration of recurrent ileitis after ileocolonic resection correlates with presurgical extent of Crohn's disease, **715**
Efficacy and safety of hydrostatic balloon dilatation of ileocolonic Crohn's strictures: a prospective longterm analysis, **577**
Enhanced colonic nitric oxide generation and nitric oxide synthase activity in ulcerative colitis and Crohn's disease, **718**
Fatal infectious mononucleosis: a severe complication in the treatment of Crohn's disease with azathioprine, **311**
Mycobacterium paratuberculosis and Crohn's disease: *corespondence*, **942**
Pelvic and perineal complications of Crohn's disease: assessment using magnetic resonance imaging, **407**
Potential role of superantigen induced activation of cell mediated immune mechanisms in the pathogenesis of Crohn's disease: *leading article*, **1**
Crypt cell proliferation
Analysis of crypt cell proliferation in coeliac disease using MI-B1 antibody shows and increase in growth function, **22**
Intestinal proliferation in coeliac disease: looking into the crypt: *leading article*, **321**
Cyclosporin, Cyclosporin in the treatment of corticosteroid resistant autoimmune chronic active hepatitis, **459**
Cytochrome P4501A2, Caffeine phenotyping of cytochrome P4501A2, *N*-acetyltransferase, and xanthine oxidase in patients with familial adenomatous polyposis, **251**
Cytochrome P450, Characterisation of *CYP3A* gene subfamily expression in human gastrointestinal tissues, **259**
Cytophotometry, Cytophotometric and flow cytometric DNA content of isolated glands in gastric neoplasia, **516**

Day surgery, Day surgery and gastroenterology: *leading article*, **324**
Death rate, Rising death rate from non-malignant disease of the oesophagus in England and Wales, **488**
Defecography, Relationships between defecographic findings, rectal emptying, and colonic transit time in constipated patients, **907**
Denmark, Prevalence and incidence of peptic ulcer disease in a Danish County, **819**
Deoxycholic acid
Deoxycholic acid in gall bladder bile does not account for the shortened nucleation time in patients with cholesterol gall stones, **121**
Unconjugated secondary bile acids in the serum of patients with colorectal adenomas, **268**
Diabetes mellitus, Seroconversion of reticulin autoantibodies predicts coeliac disease in insulin dependent diabetes mellitus, **239**
Diarrhoea
Bacterial translocation in the rat model of lectin induced diarrhoea, **379**
Natural history and prognosis of diarrhoea of unknown cause in patients with acquired immunodeficiency syndrome (AIDS), **283**
Diet, Rat intestinal mucosal responses to a microbial flora and different diets, **209**
Dietary fibre, Gastric emptying of a solid meal is accelerated by the removal of dietary fibre naturally present in food, **825**
Dilatation, Efficacy and safety of hydrostatic balloon dilatation of ileocolonic Crohn's strictures: a prospective longterm analysis, **577**
Direct access endoscopy, Serology for *Helicobacter pylori* compared with symptom questionnaires in screening before direct access endoscopy, **330**
Diverticular disease, Prospective study of physical activity and the risk of symptomatic diverticular disease in men, **276**
DNA flow cytometry, DNA flow cytometric evaluation of cell cycle distribution in ulcerative colitis: a proposed method for assessing severity of disease, **50**
Duodenal neoplasms, Caffeine phenotyping of cytochrome P4501A2, *N*-acetyltransferase, and xanthine oxidase in patients with familial adneomatous polyposis, **251**
Duodenal pH, High pH reduces DNA damage caused by bile from patients with familial adenomatous polyposis: antacids may attenuate duodenal polyposis, **918**
Duodenal ulcer
A substantial proportion of non-ulcer dyspepsia patients have the same abnormality of acid secretion as duodenal ulcer patients, **534**
Death from malignant disease after surgery for duodenal ulcer: *correspondence*, **475**
Duodenal ulcer, gastric acid, and *Helicobacter pylori*: *correspondence*, **152**
Helicobacter pylori infection does not reduce the viscosity of human gastric mucus gel, **327**
Prevalence and incidence of peptic ulcer disease in a Danish County, **819**
Duodenal ulcer disease
Helicobacter pylori eradication in the African setting, with special reference to reinfection and duodenal ulcer recurrence, **544**
Helicobacter pylori reinfection with identical organisms: transmission by the patients' spouses, **831**
Duodenogastric reflux, Profound duodenogastric reflux causes pancreatic growth in rats, **137**: *correspondence*, **943**
Duodenum
Chloride dependent amino acid transport in the human small intestine, **215**
Effect of *Helicobacter pylori* eradication on gastric metaplasia of the duodenum, **193**
Tyrosine phosphorylation in the human duodenum, **34**
Dyspepsia
A substantial proportion of non-ulcer dyspepsia patients have the same abnormality of acid secretion as duodenal ulcer patients, **534**
Importance of reflux symptoms in functional dyspepsia, **189**

Echinococcus of the liver, Echinococcus of the liver: *correspondence*, **947**
Ecstasy induced hepatitis, Ecstasy induced hepatitis mimicking viral hepatitis, **939**
Electrolyte transport, Immune regulation of human colonic electrolyte transport in vitro, **395**
Emergencies, Surgical emergencies in tropical gastroenterology: *leading article*, **9**
Endocytosis of gliadin, Translocation of gliadin into HLA-DR antigen containing lysosomes in coeliac disease, **703**
Endoscopic gall stone fragmentation, Holmium-YAG laser for gall stone fragmentation: an endoscopic tool, **442**
Endoscopic retrograde cholangiopancreatography
A three year follow up of self expanding metal stents in the endoscopic palliation of longterm survivors with malignant biliary obstruction, **618**
Detection of c-Ki-ras gene codon 12 mutations from pancreatic duct brushings in the diagnosis of pancreatic tumours, **781**
Endoscopic sphincterotomy, Retained common bile duct stones after endoscopic sphincterotomy: temporary and longterm treatment with biliary stenting, **446**
Endoscopy
Endoscopic detection of ischaemia with a new probe indicates low oxygenation of gastric epithelium in portal hypertensive gastropathy, **654**
Gastroenterology in the Trent Region in 1992 and a review of changes since 1975, **468**
Light of my life: *personal viewpoint*, **796**
Prospective audit of upper gastrointestinal endoscopy in two regions of England: safety, staffing, and sedation methods, **462**
Recent advances in the endoscopic management of variceal bleeding: *leading article*, **647**
Serology for *Helicobacter pylori* compared with symptom questionnaires in screening before direct access endoscopy, **330**
The nurse endoscopist: *special report*, **795**
Endotoxaemia, Significance of systemic endotoxaemia in inflammatory bowel disease, **897**
Energy balance, Energy expenditure and substrate metabolism in patients with cirrhosis of the liver: effects of the pattern of food intake, **110**
Energy intake, Relation between gastric emptying rate and energy intake in children compared with adults, **183**

Enteral nutrition, Luminal nutrition and gut growth: *correspondence*, **943**
Environmental factors, Low prevalence of primary biliary cirrhosis in Victoria, Australia, **927**
Enzyme activity, Studies on the expression of intestinal lactase in different individuals, **28**
Epidermal growth factors, Effect of gonadectomy on epidermal growth factor values in the gastrointestinal tract of male and female CD-1 mice, **558**
Escherichia coli, Expression of binding of plasminogen, thrombospondin, vitronectin, and fibrinogen, and adhesive properties by *Escherichia coli* strains isolated from patients with colonic diseases, **401**
Ethanol, Effects of ethanol and protein deficiency on pancreatic digestive and lysosomal enzymes, **287**
Ethics, Unethical research relating to *Helicobacter pylori*: *correspondence*, **155**
Europe
European cooperation in gastroenterology, **637**
South Asian and European colitics show characteristic differences in colonic mucus glycoprotein type and turnover, **696**
Exercise, Prospective study of physical activity and the risk of symptomatic diverticular disease in men, **276**

Faecal mucin sulphatase, Increased faecal mucin sulphatase activity in ulcerative colitis: a potential target for treatment, **570**
Faecal occult blood testing, Colorectal cancer screening in asymptomatic populations, **590**
Familial adenomatous polyposis
Caffeine phenotyping of cytochrome P4501A2, *N*-acetyltransferase, and xanthine oxidase in patients with familial adenomatous polyposis, **251**
High pH reduces DNA damage caused by bile from patients with familial adenomatous polyposis: antacids may attenuate duodenal polyposis, **918**
Novel germline APC gene mutation in a large familial adenomatous polyposis kindred displaying variable phenotypes, **731**
Proliferative compartment deregulation in the non-neoplastic colonic epithelium of familial adenomatous polyposis, **391**
Familial disease, Prevalence and pattern of familial disease in primary biliary cirrhosis, **615**
Fast protein liquid chromatography, Purification and assay of secretory lithostathine in human pancreatic juice by fast protein liquid chromatography, **622**
Fatty acid binding protein, Intestinal fatty acid binding protein is available for diagnosis of intestinal ischaemia, **788**
Fatty acid oxidation, Selective inhibition of fatty acid oxidation in colonocytes by ibuprofen: a cause of colitis? **55**
Fibreoptic technology, Light of my life: *personal viewpoint*, **796**
Flow cytometry, Cytophotometric and flow cytometric DNA content of isolated glands in gastric neoplasia, **516**
Food allergy, Role of 5-hydroxytryptamine in intestinal water and electrolyte movement during gut anaphylaxis, **553**
Food intake, Energy expenditure and substrate metabolism in patients with cirrhosis of the liver: effects of the pattern of food intake, **110**
Fulminant hepatic failure, Fulminant hepatic failure caused by tuberculosis, **792**

Gall bladder bile, Deoxycholic acid in gall bladder bile does not account for the shortened nucleation time in patients with cholesterol gall stones, **121**
Gall bladder motility
Effect of octreotide on fasting gall bladder emptying, antroduodenal motility, and motilin release in acromegaly, **755**
Effect of predigested fat on intestinal stimulation of plasma cholecystokinin and gall bladder motility in coeliac disease, **17**
Gall stones
Composition of gall bladder stones associated with octreotide: response to oral ursodeoxycholic acid, **126**
Deoxycholic acid in gall bladder bile does not account for the shortened nucleation time in patients with cholesterol gall stones, **121**
Effect of octreotide on fasting gall bladder emptying, antroduodenal motility, and motilin release in acromegaly, **755**
Holmium-YAG laser for gall stone fragmentation: an endoscopic tool, **442**
Prevalence of *Helicobacter pylori* in patients with gall stones before and after cholecystectomy, **675**
Gastric acid
Acid and gastric metaplasia in the duodenum: *correspondence*, **154**
Duodenal ulcer, gastric acid, and *Helicobacter pylori*: *correspondence*, **152**
Gastric acid secretion, Relation of acupuncture and vagal gastric acid secretion: *correspondence*, **800**
Gastric cancer
Cell proliferation in *Helicobacter pylori* associated gastritis and the effect of eradication therapy, **346**
Chronology of p53 protein accumulation in gastric carcinogenesis, **848**
Helicobacter pylori associated with a high prevalence of duodenal ulcer disease and a low prevalence of gastric cancer in a developing nation, **198**
Preservation of the spleen improves survival after radical surgery for gastric cancer, **684**
Gastric carcinoma, A variant alkaline phosphatase found in a case of gastric carcinoma with super bone scan, **299**
Gastric emptying
Gastric emptying of a solid meal is accelerated by the removal of dietary fibre naturally present in food, **825**
Relation between gastric emptying rate and energy intake in children compared with adults, **183**
Gastric epithelial proliferation, Accelerated gastric epithelial proliferation, **522**
Gastric juice, Pharmacological manipulation of gastric juice: thrombelastographic assessment and implications for treatment of gastrointestinal haemorrhage, **358**
Gastric lymphoma, Primary gastric lymphoma in clinical practice 1973-1992, **679**
Gastric metaplasia
Acid and gastric metaplasia in the duodenum: *correspondence*, **154**
Effect of *Helicobacter pylori* eradication on gastric metaplasia of the duodenum, **193**
Gastric mucosa
Cell proliferation in the gastric corpus in *Helicobacter pylori* associated gastritis and after gastric resection, **351**
Effect of capsaicin and chilli on ethanol induced gastric mucosal injury in the rat, **664**
Helicobacter pylori infection does not reduce the viscosity of human gastric mucus gel, **327**
Mucosal erosions in longterm non-steroidal anti-inflammatory drug users: predisposition to ulceration and relation to *Helicobacter pylori*, **334**
Muscarinic receptors in gastric mucosa are increased in peptic ulcer disease, **813**
Nitric oxide synthase in gastric mucosa: *correspondence*, **942**
Gastric neoplasia, Cytophotometric and flow cytometric DNA content of isolated glands in gastric neoplasia, **516**
Gastric relaxation, Impaired gastric relaxation in patients with achalasia, **363**
Gastric resection, Cell proliferation in the gastric corpus in *Helicobacter pylori* associated gastritis and after gastric resection, **351**
Gastric ulcer
Cure of peptic gastric ulcer associated with eradication of *Helicobacter pylori*, **834**
Prevalence and incidence of peptic ulcer disease in a Danish County, **819**
Gastrin, Gastrin and the growth of the gastrointestinal tract, **203**
Gastrin releasing peptide, A substantial proportion of non-ulcer dyspepsia patients have the same abnormality of acid secretion as duodenal ulcer patients, **534**
Gastritis
Cell proliferation in the gastric corpus in *Helicobacter pylori* associated gastritis and after gastric resection, **351**
Cell proliferation in *Helicobacter pylori* associated gastritis and the effect of eradication therapy, **346**
Interferon gamma and interleukin 4 secreting cells in the gastric antrum in *Helicobacter pylori* positive and negative gastritis, **341**
Gastro-oesophageal reflux
Integrity and characteristics of secondary oesophageal peristalsis in patients with gastro-oesophageal reflux disease, **499**
Precipitating causes of acid reflux episodes in ambulant patients with gastro-oesophageal reflux disease, **505**
Psychological factors in gastro-oesophageal reflux disease: *leading article*, **481**
Twenty to 40 year follow up of infantile hiatal hernia, **809**
Gastroenterology
Day surgery and gastroenterology: *leading article*, **324**
European cooperation in gastroenterology, **637**
Gastroenterology in Romania: a fresh start in a new era, **473**
Gastroenterology in the Trent Region in 1992 and a review of changes since 1975, **468**
Gastrointestinal disease
A population based study of *Helicobacter pylori* infection in a European country: the San Marino Study. Relations with gastrointestinal diseases, **838**
Hyposplenism in gastrointestinal disease: *leading article*, **165**
Gastrointestinal haemorrhage
Acute gastrointestinal haemorrhage in patients treated with anticoagulant drugs: *leading article*, **483**
Pharmacological manipulation of gastric juice: thrombelastographic assessment and implications for treatment of gastrointestinal haemorrhage, **358**

Recurrent gastrointestinal bleeding associated with chronic pancreatitis, **314**

Gastrointestinal tract, Characterisation of the influence of anti-gastrin, anti-epidermal growth factor, anti-oestradiol, and anti-luteinising hormone releasing hormone antibodies on the proliferation of 27 cells lines from the gastrointestinal tract, **220**

Gastroparesis, Postprandial function in gastroparesis: *correspondence*, **798**

General practice, Reasons for variations in the use of open access gastroscopy by general practitioners, **180**

Gliadin
Effect of gliadin and other food peptides on expression of MHC class II molecules by HT-29 cells, **548**
Translocation of gliadin into HLA-DR antigen containing lysosomes in coeliac disease, **703**
Wheat deficient in gliadins: promising tool for treatment of coeliac disease, **375**

Gliadin sensitive T cells, Histological changes in small bowel mucosa induced by gliadin sensitive T lymphocytes can be blocked by anti-interferon gamma antibody, **874**

Gluten free diet, Osteoporosis in treated adult coeliac disease, **710**

Gluten sensitive enteropathy, Seroconversion of reticulin autoantibodies predicts coeliac disease in insulin dependent diabetes mellitus, **239**

Gonadectomy, Effect of gonadectomy on epidermal growth factor values in the gastrointestinal tract of male and female CD-1 mice, **558**

Growth control, Gastrin and the growth of the gastrointestinal tract, **203**

Growth factors
Characterisation of the influence of anti-gastrin, anti-epidermal growth factor, anti-oestradiol, and anti-luteinising hormone releasing hormone antibodies on the proliferation of 27 cells lines from the gastrointestinal tract, **220**
Stimulation and inhibition of proliferation in the small intestinal crypts of the mouse after in vivo administration of growth factors, **864**

Guaiac occult blood test, Diagnostic value of a guaiac occult blood test and faecal alpha 1-antitrypsin, **87**

Gut anaphylaxis, Role of 5-hydroxytryptamine in intestinal water and electrolyte movement during gut anaphylaxis, **553**

Gut growth, Luminal nutrition and gut growth: *correspondence*, **943**

Haemochromatosis, Increased PiZ gene frequency for α_1 antitrypsin in patients with genetic haemochromatosis, **922**

Helicobacter pylori
A population based study of *Helicobacter pylori* infection in a European country: the San Marino Study. Relations with gastrointestinal diseases, **838**
A substantial proportion of non-ulcer dyspepsia patients have the same abnormality of acid secretion as duodenal ulcer patients, **534**
Cell proliferation in the gastric corpus in *Helicobacter pylori* associated gastritis and after gastric resection, **351**
Cell proliferation in *Helicobacter pylori* associated gastritis and the effect of eradication therapy, **346**
Changes in the intragastric distribution of *Helicobacter pylori* during treatment with omeprazole, **12**
Cure of peptic gastric ulcer associated with eradication of *Helicobacter pylori*, **834**
Detection of the intragastric sites at which *Helicobacter pylori* evades treatment with amoxycillin and cimetidine, **670**
Duodenal ulcer, gastric acid, and *Helicobacter pylori*: *correspondence*, **152**
Effect of *Helicobacter pylori* eradication on gastric metaplasia of the duodenum, **193**
Effect of *Helicobacter pylori* status on intragastric pH during treatment with omeprazole, **539**
Effect of a test meal on the intragastric distribution of urea in the ^{13}C-urea breath test for *Helicobacter pylori*, **337**
Helicobacter pylori associated with a high prevalence of duodenal ulcer disease and a low prevalence of gastric cancer in a developing nation, **198**
Helicobacter pylori eradication in the African setting, with special reference to reinfection and duodenal ulcer recurrence, **544**
Helicobacter pylori infection does not reduce the viscosity of human gastric mucus gel, **327**
Helicobacter pylori reinfection with identical organisms: transmission by the patients' spouses, **831**
High *Helicobacter pylori* numbers are associated with low eradication rate after triple therapy, **845**
Interferon gamma and interleukin 4 secreting cells in the gastric antrum in *Helicobacter pylori* positive and negative gastritis, **341**
Ménétrier's disease: *correspondence*, **945**
Mucosal erosions in longterm non-steroidal anti-inflammatory drug users: predisposition to ulceration and relation to *Helicobacter pylori*, **334**
Neutrophil degranulation by *Helicobacter pylori* proteins, **354**
Prevalence of *Helicobacter pylori* in patients with gall stones before and after cholecystectomy, **675**
Primary gastric lymphoma in clinical practice 1973-1992, **679**
Serology for *Helicobacter pylori* compared with symptom questionnaires in screening before direct access endoscopy, **330**
Unethical research relating to *Helicobacter pylori*: *correspondence*, **155**

Hepatic acute phase protein, Pancreatic cancer cell derived IL-8 stimulates hepatic acute phase protein production in vitro and serum IL-8 correlates with serum CRP in pancreatic cancer patients in vivo, **A479**

Hepatic acute phase response, PBMC regulation of the heaptic acute phase response (APPR) in cancer patients occurs via an IL-6 dependent mechanism, **A479**

Hepatic venous outflow, Hepatic venous outflow obstruction in patients with polycystic liver disease: pathogenesis and treatment, **142**

Hepatic venous pressure, Portal and systemic haemodynamic response to acute and chronic administration of low and high dose isosorbide-5-mononitrate in patients with cirrhosis, **104**

Hepatitis
Cyclosporin in the treatment of corticosteroid resistant autoimmune chronic active hepatitis, **459**
Failure to incriminate hepatitis B, hepatitis C, and hepatitis E viruses in the aetiology of fulminant non-A non-B hepatitis, **433**
Hepatitis induced by traditional Chinese herbs: possible toxic components, **146**

Hepatitis B virus, Adenine arabinoside 5'-monophosphate in patients with chronic hepatitis B: comparison of the efficacy in patients with high and low viral replication, **422**

Hepatitis C
Acute hepatitis C infection after sexual exposure, **148**
Chronic hepatitis C virus infections: predictive value of genotype and level of viraemia on disease progression and response to interferon α, **427**
Liver cytosolic 1 antigen-antibody system in type 2 autoimmune hepatitis and hepatitis C virus infection, **749**
Serum intercellular adhesion molecule-1 levels in chronic hepatitis C: association with disease activity and response to interferon α, **599**

Hepatocellular carcinoma
Increased PiZ gene frequency for α_1 antitrypsin in patients with genetic haemochromatosis, **922**
Liver transplantation for hepatocellular carcinoma: *leading article*, **644**

Hereditary non-polyposis colorectal carcinoma
Analysis of Ha-ras 1 allele frequencies in hereditary non-polyposis colorectal cancer, **382**
Variables associated with the risk of colorectal adenomas in asymptomatic patients with a family history of colorectal cancer, **385**

Hiatal hernia, Twenty to 40 year follow up of infantile hiatal hernia, **809**

High performance liquid chromatography, Quantification of human lithostathine by high performance liquid chromatography, **630**

HLA-DR antigen, Translocation of gliadin into HLA-DR antigen containing lysosomes in coeliac disease, **703**

HLA molecules, Constitutive and cytokine induced expression of HLA molecules, secretory component, and intercellular adhesion molecule-1 is modulated by butyrate in the colonic epithelial cell line HT-29, **737**

Holmium-YAG laser, Holmium-YAG laser for gall stone fragmentation: an endoscopic tool, **442**

Hormones, Characterisation of the influence of anti-gastrin, anti-epidermal growth factor, anti-oestradiol, and anti-luteinising hormone releasing hormone antibodies on the proliferation of 27 cells lines from the gastrointestinal tract, **220**

HT-29 cells, Effect of gliadin and other food peptides on expression of MHC class II molecules by HT-29 cells, **548**

Hydrostatic balloon dilatation, Efficacy and safety of hydrostatic balloon dilatation of ileocolonic Crohn's strictures: a prospective longterm analysis, **577**

5-Hydroxytryptamine, Role of 5-hydroxytryptamine in intestinal water and electrolyte movement during gut anaphylaxis, **553**

Hyposplenism, Hyposplenism in gastrointestinal disease: *leading article*, **165**

Ibuprofen
Ibuprofen versus placebo in the treatment of pancreatic cancer cachexia, **A479**
Selective inhibition of fatty acid oxidation in colonocytes by ibuprofen: a cause of colitis?, **55**

Ileitis, Duration of recurrent ileitis after ileocolonic resection correlates with presurgical extent of Crohn's disease, **715**

Ileocaecal transit, Scintigraphic measurement of ileocaecal transit in irritable bowel syndrome and chronic idiopathic constipation, **585**

Ileocolonic resection, Duration of recurrent ileitis after ileocolonic resection correlates with presurgical extent of Crohn's disease, **715**

Immune mediated liver disease, Soluble adhesion molecules in immune mediated liver disease: *leading article*, **806**

Immunogold electron microscopy, Persistent measles virus infection of the intestine: confirmation by immunogold electron microscopy, **564**
In situ hybridisation, Characterisation of *CYP3A* gene subfamily expression in human gastrointestinal tissues, **259**
Incidence, Prevalence and incidence of peptic ulcer disease in a Danish County, **819**
Infectious mononucleosis, Fatal infectious mononucleosis: a severe complication in the treatment of Crohn's disease with azathioprine, **311**
Inflammatory bowel disease
Adhesion molecules in inflammtory bowel disease, **724**
Evaluation of intestinal permeability in patients with inflammatory bowel disease using lactulose and measuring antibodies to lipid A, **891**
Increased expression of cell adhesion molecule P-selectin in active inflammatory bowel disease, **411**
P-ANCA in monozygotic twins with inflammatory bowel disease, **887**
Platelet dysfunction: a new dimension in inflammtory bowel disease: *leading article*, **5**
Quantification of inflammatory bowel disease activity using technetium-99m HMPAO labelled leucocyte single photon emission computerised tomography, **243**
Significance of systemic endotoxaemia in inflammatory bowel disease, **897**
Soluble interleukin-6 receptors in inflammatory bowel disease: relation to circulating interleukin-6, **45**
Interferon alpha
Chronic hepatitis C virus infections: predictive value of genotype and level of viraemia on disease progression and response to interferon α, **427**
Serum intercellular adhesion molecule-1 levels in chronic hepatitis C: association with disease activity and response to interferon α, **599**
Interferon gamma
Ascitic fluid gamma interferon concentrations and adenosine deaminase activity in tuberculous peritonitis, **419**
Histological changes in small bowel mucosa induced by gliadin sensitive T lymphocytes can be blocked by anti-interferon gamma antibody, **874**
Interferon gamma and interleukin 4 secreting cells in the gastric antrum in *Helicobacter pylori* positive and negative gastritis, **341**
Interleukin 4, Interferon gamma and interleukin 4 secreting cells in the gastric antrum in *Helicobacter pylori* positive and negative gastritis, **341**
Interleukin-6, Soluble interleukin-6 receptors in inflammatory bowel disease: relation to circulating interleukin-6, **45**
Interleukin-8, Pancreatic cancer cell derived IL-8 stimulates hepatic acute phase protein production in vitro and serum IL-8 correlates with serum CRP in pancreatic cancer patients in vivo, **A479**
Internal anal sphincter hypertrophy, Hereditary proctalgia fugax and constipation: report of a second family, **581**
Intestinal epithelial cell proliferation, Novel insights into human intestinal epithelial cell proliferation in health and disease using confocal microscopy, **369**
Intestinal ischaemia, Intestinal fatty acid binding protein is available for diagnosis of intestinal ischaemia, **788**
Intestinal mucosa, Rat intestinal mucosal responses to a microbial flora and different diets, **209**
Intestinal permeability, Evaluation of intestinal permeability in patients with inflammatory bowel disease using lactulose and measuring antibodies to lipid A, **891**
Intestinal proliferation, Intestinal proliferation in coeliac disease: looking into the crypt: *leading article*, **321**
Intraepithelial lymphocytes, Microscopic colitis syndrome, **880**
Intragastric distribution, Changes in the intragastric distribution of *Helicobacter pylori* during treatment with omeprazole, **12**
Intragastric pH-metry, Effect of *Helicobacter pylori* status on intragastric pH during treatment with omeprazole, **539**
Intraluminal gastric pH, Intraluminal gastric pH in chronic pancreatitis, **294**
Irritable bowel syndrome, Scintigraphic measurement of ileocaecal transit in irritable bowel syndrome and chronic idiopathic constipation, **585**
Ischaemia, Endoscopic detection of ischaemia with a new probe indicates low oxygenation of gastric epithelium in portal hypertensive gastropathy, **654**
Isosorbide-5-mononitrate, Portal and systemic haemodynamic response to acute and chronic administration of low and high dose isosorbide-5-mononitrate in patients with cirrhosis, **104**

Jaundice, Ecstasy induced hepatitis mimicking viral hepatitis, **939**

Ki-67 antigen, Proliferative compartment deregulation in the non-neoplastic colonic epithelium of familial adenomatous polyposis, **391**
Ki-ras gene mutation, Detection of c-Ki-ras gene codon 12 mutations from pancreatic duct brushings in the diagnosis of pancreatic tumours, **781**
Ki-*ras* mutation, Detection of c-Ki-*ras* mutations in faecal samples from sporadic colorectal cancer patients, **81**

Labelling index, Stimulation and inhibition of proliferation in the small intestinal crypts of the mouse after in vivo administration of growth factors, **864**
Lactase, Studies on the expression of intestinal lactase in different individuals, **28**
Lactulose, Evaluation of intestinal permeability in patients with inflammatory bowel disease using lactulose and measuring antibodies to lipid A, **891**
Laparoscopic biliary bypass, Laparoscopic biliary and gastric bypass: a useful adjunct in the treatment of carcinoma of the pancreas, **778**
Laparoscopic cholecystectomy, Laparoscopic cholecystectomy: *leading article*, **161**
Laparoscopic gastric bypass, Laparoscopic biliary and gastric bypass: a useful adjunct in the treatment of carcinoma of the pancreas, **778**
Laparotomy, Laparoscopic biliary and gastric bypass: a useful adjunct in the treatment of carcinoma of the pancreas, **778**
Laser, Holmium-YAG laser for gall stone fragmentation: an endoscopic tool, **442**
Lauren classification, Chronology of p53 protein accumulation in gastric carcinogenesis, **848**
Lectin, Bacterial translocation in the rat model of lectin induced diarrhoea, **379**
Leukotrienes, Misoprostol inhibits gastric mucosal release of endogenous prostaglandin E_2 and thromboxane B_2 in healthy volunteers, **511**
Lexipafant, A double-blind placebo controlled study of lexipafant (a potent PAF antagonist) in acute pancreatitis, **A478**
Lipid A, Evaluation of intestinal permeability in patients with inflammatory bowel disease using lactulose and measuring antibodies to lipid A, **891**
Lipid digestion, Effect of predigested fat on intestinal stimulation of plasma cholecystokinin and gall bladder motility in coeliac disease, **17**
Lithium gamma linolenic acid, Cytotoxicity of lithium gamma linolenic acid on pancreatic carcinoma cell lines in vitro, **A477**
Lithostathine
Purification and assay of secretory lithostathine in human pancreatic juice by fast protein liquid chromatography, **622**
Quantification of human lithostathine by high performance liquid chromatography, **630**
Liver
Artificial livers – what's keeping them? *leading article*, **168**
Indications, methods, and outcomes of percutaneous liver biopsy in England and Wales: an audit by the British Society of Gastroenterology and the Royal College of Physicians of London, **437**
Liver cytosolic antigen-antibody, Liver cytosolic 1 antigen-antibody system in type 2 autoimmune hepatitis and hepatitis C virus infection, **749**
Liver disease, Soluble adhesion molecules in immune mediated liver disease: *leading article*, **806**
Liver failure, Failure to incriminate hepatitis B, hepatitis C, and hepatitis E viruses in the aetiology of fulminant non-A non-B hepatitis, **433**
Liver transplantation, Liver transplantation for hepatocellular carcinoma: *leading article*, **644**
Liver tumour, Octreotide, the reticuloendothelial system, and experimental liver tumour, **610**
Lower oesophageal sphincter pressure, Effect of cholecystokinin on lower oesophageal sphincter pressure and transient lower oesophageal sphincter relaxations in humans, **39**
Luminal nutrition, Luminal nutrition and gut growth: *correspondence*, **943**
Lung injury, Acute lung injury in the microembolic model of acute pancreatitis, **A478**
Lymphoma, Primary gastric lymphoma in clinical practice 1973-1992, **679**

Magnetic resonance imaging
Dynamic contrast enhanced magnetic resonance imaging is superior to dynamic computed tomography in acute pancreatitis, **A478**
Pelvic and perineal complications of Crohn's disease: assessment using magnetic resonance imaging, **407**
Major histocompatibility, Effect of gliadin and other food peptides on expression of MHC class II molecules by HT-29 cells, **548**
Major histocompatibility complex, Autoimmunity and chronic pancreatitis: *correspondence*, **799**
Mast cell secretion, Immune regulation of human colonic electrolyte transport in vitro, **395**

Measles virus, Persistent measles virus infection of the intestine: confirmation by immunogold electron microscopy, **564**
Ménétrier's disease, Ménétrier's disease: *correspondence*, **945**
Messenger RNA, Studies on the expression of intestinal lactase in different individuals, **28**
Metalloproteinase, Collagenase, stromelysin, and tissue inhibitor of metalloproteinase expression in pancreatic and ampullary cancer, **A477**
Metastasis, Current concepts in metastasis: *correspondence*, **153**
3,4-Methylenedioxymetamphetamine (MDMA), Ecstasy induced hepatitis mimicking viral hepatitis, **939**
MI-B1 antibody, Analysis of crypt cell proliferation in coeliac disease using MI-B1 antibody shows an increase in growth function, **22**
Microbial flora, Rat intestinal mucosal responses to a microbial flora and different diets, **209**
Microembolic model, Acute lung injury in the microembolic model of acute pancreatitis, **A478**
Microscopic colitis, Microscopic colitis syndrome, **880**
Misoprostol, Misoprostol inhibits gastric mucosal release of endogenous prostaglandin E_2 and thromboxane B_2 in healthy volunteers, **511**
Monoclonal antibody, Proliferative compartment deregulation in the non-neoplastic colonic epithelium of familial adenomatous polyposis, **391**
Motilin, Effect of octreotide on fasting gall bladder emptying, antroduodenal motility, and motilin release in acromegaly, **755**
Motility
Differential regional effects of octreotide on human gastrointestinal motor function, **743**
Effect of octreotide on fasting gall bladder emptying, antroduodenal motility, and motilin release in acromegaly, **755**
Mucin sulphatase, Inceased faecal mucin sulphatase activity in ulcerative colitis: a potential target for treatment, **570**
Mucus glycoprotein type, South Asian and European colitics show characteristic differences in colonic mucus glycoprotein type and turnover, **696**
Muscarinic receptors, Muscarinic receptors in gastric mucosa are increased in peptic ulcer disease, **813**
Mutagen activation, Characterisation of *CYP3A* gene subfamily expression in human gastrointestinal tissues, **259**
Mycobacterium paratuberculosis, *Mycobacterium paratuberculosis* and Crohn's disease: *corespondence*, **942**

***N*-acetyltransferase**, Caffeine phenotyping of cytochrome P4501A2, *N*-acetyltransferase, and xanthine oxidase in patients with familial adenomatous polyposis, **251**
Neutrophils, Neutrophil degranulation by *Helicobacter pylori* proteins, **354**
Nitric oxide, Enhanced colonic nitric oxide generation and nitric oxide synthase activity in ulcerative colitis and Crohn's disease, **718**
Nitric oxide synthase, Nitric oxide synthase in gastric mucosa: *correspondence*, **942**
Non-A non-B hepatitis, Failure to incriminate hepatitis B, hepatitis C, and hepatitis E viruses in the aetiology of fulminant non-A non-B hepatitis, **433**
Non-Hodgkin's lymphoma, Colitis ulcerosa complicated by malignant lymphoma: case report and analysis of published works, **306**
Non-malignant disease of the oesophagus, Rising death rate from non-malignant disease of the oesophagus in England and Wales, **488**
Non-steroidal anti-inflammatory drugs
Mucosal erosions in longterm non-steroidal anti-inflammatory drug users: predisposition to ulceration and relation to *Helicobacter pylori*, **334**
Non-steroidal anti-inflammatory drugs and prostaglandin effects on pepsinogen secretion by dispersed human peptic cells, **657**
NSAIDs and the chemoprevention of colon and oesophageal cancer: *correspondence*, **153**
Notes, **157**, **476**, **640**, **948**
Nucleation time, Deoxycholic acid in gall bladder bile does not account for the shortened nucleation time in patients with cholesterol gall stones, **121**
Nurse endoscopist, The nurse endoscopist: *special report*, **795**
Nutrition, Luminal nutrition and gut growth: *correspondence*, **943**

Obesity, Satiety effects of a physiological dose of cholecystokinin in humans, **176**
Obituary, Dr Eru Pomare, **802**
Octreotide
Composition of gall bladder stones associated with octreotide: response to oral ursodeoxycholic acid, **126**
Differential regional effects of octreotide on human gastrointestinal motor function, **743**
Effect of octreotide on fasting gall bladder emptying, antroduodenal motility, and motilin release in acromegaly, **755**
Octreotide, the reticuloendothelial system, and experimental liver tumour, **610**
Treatment of pain in chronic pancreatitis by inhibition of pancreatic secretion with octreotide, **450**
Oesophageal acid, Importance of reflux symptoms in functional dyspepsia, **189**
Oesophageal cancer
Cancer of the oesophagus: *correspondence*, **153**
NSAIDs and the chemoprevention of colon and oesophageal cancer: *correspondence*, **153**
Oesophageal peristalsis, Integrity and characteristics of secondary oesophageal peristalsis in patients with gastro-oesophageal reflux disease, **499**
Oesophageal secretion, Effect of topical oesophageal acidification on human salivary and oesophageal alkali secretion, **649**
Oesophagus, Rising death rate from non-malignant disease of the oesophagus in England and Wales, **488**
Oligopeptide diet, Controlled trial of oligopeptide versus amino acid diet in treatment of active Crohn's disease, **60**
Omeprazole
Accelerated gastric epithelial proliferation, **522**
Changes in the intragastric distribution of *Helicobacter pylori* during treatment with omeprazole, **12**
Effect of *Helicobacter pylori* status on intragastric pH during treatment with omeprazole, **539**
Omeprazole 10 mg or 20 mg once daily in the prevention of recurrence of reflux oesophagitis, **492**
Open access gastroscopy, Reasons for variations in the use of open access gastroscopy by general practitioners, **180**
Osteoporosis, Osteoporosis in treated adult coeliac disease, **710**

p53 protein
Antibodies against p53 protein in serum of patients with benign or malignant pancreatic and biliary diseases, **455**
Chronology of p53 protein accumulation in gastric carcinogenesis, **848**
Colorectal tumorigenesis: *correspondence*, **801**
Expression of mutant p53 protein and CD44 variant proteins in colorectal tumorigenesis, **76**
P-ANCA, P-ANCA in monozygotic twins with inflammatory bowel disease, **887**
P-selectin, Increased expression of cell adhesion molecule P-selectin in active inflammatory bowel disease, **411**
Pain, Treatment of pain in chronic pancreatitis by inhibition of pancreatic secretion with octreotide, **450**
Pancreatic cancer (carcinoma)
Antibodies against p53 protein in serum of patients with benign or malignant pancreatic and biliary diseases, **455**
Collagenase, stromelysin, and tissue inhibitor of metalloproteinase expression in pancreatic and ampullary cancer, **A477**
Cytotoxicity of lithium gamma linolenic acid on pancreatic carcinoma cell lines in vitro, **A477**
Detection of c-Ki-ras gene codon 12 mutations from pancreatic duct brushings in the diagnosis of pancreatic tumours, **781**
Diagnosis of pancreatic cancer by 2[^{18}F]-fluoro-2-deoxy-D-glucose positron emission tomography, **771**
Ibuprofen versus placebo in the treatment of pancreatic cancer cachexia, **A479**
Isolation of a novel gene rearranged and overexpressed in pancreatic cancer, **A477**
Laparoscopic biliary and gastric bypass: a useful adjunct in the treatment of carcinoma of the pancreas, **778**
Pancreatic cancer cell derived IL-8 stimulates hepatic acute phase protein production in vitro and serum IL-8 correlates with serum CRP in pancreatic cancer patients in vivo, **A479**
Pancreatic carcinoma: an audit of treatment, survival, and quality of life, **A479**
PBMC regulation of the hepatic acute phase response (APPR) in cancer patients occurs via an IL-6 dependent mechanism, **A479**
The acute phase response and survival in pancreatic cancer, **A479**
Tissue factor and tissue factor pathway inhibitor in human pancreatic carcinoma, **A479**
Tumour specific targeting of prodrug activation as gene therapy for pancreatic cancer, **A477**
Pancreatic disease, Secretin induces a paradoxical sphincter of oddi hyperpressure effect in alcoholic patients without pancreatic disease, **A477**
Pancreatic enzymes, Effects of ethanol and protein deficiency on pancreatic digestive and lysosomal enzymes, **287**
Pancreatic growth, Profound duodenogastric reflux causes pancreatic growth in rats, **137**: *correspondence*, **943**
Pancreatic injury, Increased serum pancreatitis associated protein (PAP) concentration after longterm alcohol consumption: further evidence for regular subclinical pancreatic damage after heavy drinking?, **117**
Pancreatic insufficiency, Intraluminal gastric pH in chronic pancreatitis, **294**

Pancreatitis
A double-blind placebo controlled study of lexipafant (a potent PAF antagonist) in acute pancreatitis, **A478**
Acute lung injury in the microembolic model of acute pancreatitis, **A478**
Autoimmunity and chronic pancreatitis: *correspondence*, **799**
Current views on the pathophysiology of acute biliary pancreatitis: *leading article*, **803**
Detection of c-Ki-ras gene codon 12 mutations from pancreatic duct brushings in the diagnosis of pancreatic tumours, **781**
Dynamic contrast enhanced magnetic resonance imaging is superior to dynamic computed tomography in acute pancreatitis, **A478**
Intraluminal gastric pH in chronic pancreatitis, **294**
Pancreatic vascular regulation in chronic pancreatitis in cats, **133**
Purification and assay of secretory lithostathine in human pancreatic juice by fast protein liquid chromatography, **622**
Quantification of human lithostathine by high performance liquid chromatography, **630**
Recurrent gastrointestinal bleeding associated with chronic pancreatitis, **314**
Treatment of pain in chronic pancreatitis by inhibition of pancreatic secretion with octreotide, **450**
Which clinical prognostic score for acute pancreatitis? Results of a prospective multicentre study of 719 episodes, **A478**
Which complications of acute pancreatitis are most lethal? A prospective multicentre clinical study of 719 episodes, **A478**
Pancreatography, Is biliary lithiasis associated with pancreatographic changes? **761**
PAP concentration, Increased serum pancreatitis associated protein (PAP) concentration after longterm alcohol consumption: further evidence for regular subclinical pancreatic damage after heavy drinking?, **117**
Pepsinogen, Non-steroidal anti-inflammatory drugs and prostaglandin effects on pepsinogen secretion by dispersed human peptic cells, **657**
Peptic ulcer
Death from malignant disease after surgery for duodenal ulcer: *correspondence*, **475**
Helicobacter pylori infection does not reduce the viscosity of human gastric mucus gel, **327**
Peptic ulcer disease
Helicobacter pylori associated with a high prevalence of duodenal ulcer disease and a low prevalence of gastric cancer in a developing nation, **198**
Muscarinic receptors in gastric mucosa are increased in peptic ulcer disease, **813**
Prevalence and incidence of peptic ulcer disease in a Danish County, **819**
Peristalsis, Integrity and characteristics of secondary oesophageal peristalsis in patients with gastro-oesophageal reflux disease, **499**
Peritonitis, Increased CA 125 in a patient with tuberculous peritonitis: case report and review of published works, **303**
Pernicious anaemia, Functional defect of T cells in autoimmune gastritis, **171**
Peyer's patches, Expression of adhesion molecules in human Peyer's patches: *correspondence*, **944**
Photodynamic therapy
Photodynamic therapy for malignant tumours of the ampulla of Vater, **853**
Photosensitisation and photodynamic therapy of oesophageal, duodenal, and colorectal tumours using 5 aminolaevulinic acid induced protoporphyrin IX, **67**
Physical activity, Prospective study of physical activity and the risk of symptomatic diverticular disease in men, **276**
PiZ, Increased PiZ gene frequency for α_1 antitrypsin in patients with genetic haemochromatosis, **922**
Platelet dysfunction, Platelet dysfunction: a new dimension in inflammatory bowel disease: *leading article*, **5**
Polycystic liver disease, Hepatic venous outflow obstruction in patients with polycystic liver disease: pathogenesis and treatment, **142**
Polyethylene glycol, Polyethylene glycol (PEG) as a marker of small intestinal permeability: *correspondence*, **946**
Population based study, A population based study of *Helicobacter pylori* infection in a European country: the San Marino Study. Relations with gastrointestinal diseases, **838**
Portal hypertensive gastropathy, Endoscopic detection of ischaemia with a new probe indicates low oxygenation of gastric epithelium in portal hypertensive gastropathy, **654**
Positron emission tomography, Diagnosis of pancreatic cancer by 2[^{18}F]-fluoro-2-deoxy-D-glucose positron emission tomography, **771**
Postprandial function, Postprandial function in gastroparesis: *correspondence*, **798**
Prevalence
Low prevalence of primary biliary cirrhosis in Victoria, Australia, **927**
Prevalence and incidence of peptic ulcer disease in a Danish County, **819**
Primary biliary cirrhosis
Adhesion molecule expression in primary sclerosing cholangitis and primary biliary cirrhosis, **604**
Characterisation of patients with a complete biochemical response to ursodeoxycholic acid, **935**
Low prevalence of primary biliary cirrhosis in Victoria, Australia, **927**
Natural history of bacteriuria in women with primary biliary cirrhosis and the effect of antimicrobial therapy in symptomatic and asymptomatic groups, **931**
Prevalence and pattern of familial disease in primary biliary cirrhosis, **615**
Primary gastric lymphoma, Primary gastric lymphoma in clinical practice 1973-1992, **679**
Primary sclerosing cholangitis, Adhesion molecule expression in primary sclerosing cholangitis and primary biliary cirrhosis, **604**
Proctalgia fugax, Hereditary proctalgia fugax and constipation: report of a second family, **581**
Prodrug activation, Tumour specific targeting of prodrug activation as gene therapy for pancreatic cancer, **A477**
Proliferating cell nuclear antigen, Accelerated gastric epithelial proliferation, **522**
Proliferation
Cell proliferation in the gastric corpus in *Helicobacter pylori* associated gastritis and after gastric resection, **351**
Intestinal proliferation in coeliac disease: looking into the crypt: *leading article*, **321**
Novel insights into human intestinal epithelial cell proliferation in health and disease using confocal microscopy, **369**
Proliferative compartment deregulation in the non-neoplastic colonic epithelium of familial adenomatous polyposis, **391**
Proliferative index, DNA flow cytometric evaluation of cell cycle distribution in ulcerative colitis: a proposed method for assessing severity of disease, **50**
Prostaglandins
Misoprostol inhibits gastric mucosal release of endogenous prostaglandin E_2 and thromboxane B_2 in healthy volunteers, **511**
Muscarinic M_1 receptor inhibition reduces gastroduodenal bicarbonate secretion and promotes gastric prostaglandin E_2 synthesis in healthy volunteers, **528**
Non-steroidal anti-inflammatory drugs and prostaglandin effects on pepsinogen secretion by dispersed human peptic cells, **657**
Protein, Studies on the expression of intestinal lactase in different individuals, **28**
Protein binding expression, Expression of binding of plasminogen, thrombospondin, vitronectin, and fibrinogen, and adhesive properties by *Escherichia coli* strains isolated from patients with colonic diseases, **401**
Protein deficiency, Effects of ethanol and protein deficiency on pancreatic digestive and lysosomal enzymes, **287**
Protoporphyrin IX, Photosensitisation and photodynamic therapy of oesophageal, duodenal, and colorectal tumours using 5 aminolaevulinic acid induced protoporphyrin IX, **67**
Psychological factors, Psychological factors in gastro-oesophageal reflux disease: *leading article*, **481**
Purine nucleoside, Adenine arabinoside 5'-monophosphate in patients with chronic hepatitis B: comparison of the efficacy in patients with high and low viral replication, **422**
Purse string pancreaticojejunostomy, Results of purse string pancreaticojejunostomy after partial pancreatectomy, **A479**

Quality of life, Pancreatic carcinoma: an audit of treatment, survival, and quality of life, **A479**
Questionnaire, Serology for *Helicobacter pylori* compared with symptom questionnaires in screening before direct access endoscopy, **330**

Radionuclides, Reporting simplified colonic transit studies using radionuclides: clinician friendly reports, **274**
Real time electronic imager, First clinical results with a real time, electronic imager as an aid to colonoscopy, **913**
Rectal emptying, Relationships between defecographic findings, rectal emptying, and colonic transit time in constipated patients, **907**
Reflux, Importance of reflux symptoms in functional dyspepsia, **189**
Reflux oesophagitis, Omeprazole 10 mg or 20 mg once daily in the prevention of recurrence of reflux oesophagitis, **492**
Reinfection, *Helicobacter pylori* reinfection with identical organisms: transmission by the patients' spouses, **831**
Restorative proctocolectomy, Preservation of complete anal sphincteric proprioception in restorative proctocolectomy: the inhibitory reflex and fine control of continence need not be impaired, **902**
Reticulin autoantibodies, Seroconversion of reticulin autoantibodies predicts coeliac disease in insulin dependent diabetes mellitus, **239**
Reticuloendothelial system, Octreotide, the reticuloendothelial system, and experimental liver tumour, **610**

Retinoid X receptor expression, 1,25-dihydroxyvitamin D_3 and retinoid X receptor expression in human colorectal neoplasms, **255**
Romania, Gastroenterology in Romania: a fresh start in a new era, **473**
Rotavirus infection, Sequential changes in small intestinal structure and function during rotavirus infection in neonatal rats, **231**

Salicylates
An alternative view of 5-ASA formulations: *correspondence*, **639**
New salicylates as maintenance treatment in ulcerative colitis: *correspondence*, **640**
Saliva, Effect of topical oesophageal acidification on human salivary and oesophageal alkali secretion, **649**
'Sanctuary' sites, Detection of the intragastric sites at which *Helicobacter pylori* evades treatment with amoxycillin and cimetidine, **670**
Satiety, Satiety effects of a physiological dose of cholecystokinin in humans, **176**
Scintigraphy, Scintigraphic measurement of ileocaecal transit in irritable bowel syndrome and chronic idiopathic constipation, **585**
Screening
A screening clinic for relatives of patients with colorectal cancer in a district general hospital, **90**
Colorectal cancer screening in asymptomatic populations, **590**
Variables associated with the risk of colorectal adenomas in asymptomatic patients with a family history of colorectal cancer, **385**
Secretin, Secretin induces a paradoxical sphincter of oddi hyperpressure effect in alcoholic patients without pancreatic disease, **A477**
Sexual exposure, Acute hepatitis C infection after sexual exposure, **148**
Single photon emission computerised tomography, Quantification of inflammatory bowel disease activity using technetium-99m HMPAO labelled leucocyte single photon emission computerised tomography, **243**
Small intestine
Differential regional effects of octreotide on human gastrointestinal motor function, **743**
Luminal nutrition and gut growth: *correspondence*, **943**
Sequential changes in small intestinal structure and function during rotavirus infection in neonatal rats, **231**
Stimulation and inhibition of proliferation in the small intestinal crypts of the mouse after in vivo administration of growth factors, **864**
Sodium butyrate, Colonic mucin synthesis is increased by sodium butyrate, **93**
Solid meal, Gastric emptying of a solid meal is accelerated by the removal of dietary fibre naturally present in food, **825**
Somatostatin
Differential regional effects of octreotide on human gastrointestinal motor function, **743**
Somatostatin prevents the postoperative increases in plasma amino acid clearance and urea synthesis after elective cholecystectomy, **766**
South Asia, South Asian and European colitics show characteristic differences in colonic mucus glycoprotein type and turnover, **696**
Splanchnic blood flow, Why portal hypertensive varices bleed and bleed: a hypothesis, **100**
Spleen
Hyposplenism in gastrointestinal disease: *leading article*, **165**
Preservation of the spleen improves survival after radical surgery for gastric cancer, **684**
Splenectomy, Preservation of the spleen improves survival after radical surgery for gastric cancer, **684**
Stents, stenting
A three year follow up of self expanding metal stents in the endoscopic palliation of longterm survivors with malignant biliary obstruction, **618**
Retained common bile duct stones after endoscopic sphincterotomy: temporary and longterm treatment with biliary stenting, **446**
Role of biliary stenting in the management of bile duct stones in the elderly: *leading article*, **485**
Stromelysin, Collagenase, stromelysin, and tissue inhibitor of metalloproteinase expression in pancreatic and ampullary cancer, **A477**
Substrate metabolism, Energy expenditure and substrate metabolism in patients with cirrhosis of the liver: effects of the pattern of food intake, **110**
Super bone scan, A variant alkaline phosphatase found in a case of gastric carcinoma with super bone scan, **299**
Superantigen, Potential role of superantigen induced activation of cell mediated immune mechanisms in the pathogenesis of Crohn's disease: *leading article*, **1**
Surgical emergencies, Surgical emergencies in tropical gastroenterology: *leading article*, **9**

T cells, Functional defect of T cells in autoimmune gastritis, **171**
Technetium-99m, Quantification of inflammatory bowel disease activity using technetium-99m HMPAO labelled leucocyte single photon emission computerised tomography, **243**
Test meal, Effect of a test meal on the intragastric distribution of urea in the ^{13}C-urea breath test for *Helicobacter pylori*, **337**
Thrombelastography, Pharmacological manipulation of gastric juice: thrombelastographic assessment and implications for treatment of gastrointestinal haemorrhage, **358**
Thromboxanes, Misoprostol inhibits gastric mucosal release of endogenous prostaglandin E_2 and thromboxane B_2 in healthy volunteers, **511**
Tissue factor, Tissue factor and tissue factor pathway inhibitor in human pancreatic carcinoma, **A479**
Transit, Differential regional effects of octreotide on human gastrointestinal motor function, **743**
Transport, Chloride dependent amino acid transport in the human small intestine, **215**
Tuberculosis
Fulminant hepatic failure caused by tuberculosis, **792**
Increased CA 125 in a patient with tuberculous peritonitis: case report and review of published works, **303**
Tuberculous peritonitis, Ascitic fluid gamma interferon concentrations and adenosine deaminase activity in tuberculous peritonitis, **419**
Twins, P-ANCA in monozygotic twins with inflammatory bowel disease, **887**
Tyrosine phosphorylation, Tyrosine phosphorylation in the human duodenum, **34**

Ulcerative colitis
An alternative view of 5-ASA formulations: *correspondence*, **639**
Cancer surveillance in ulcerative colitis: *correspondence*, **801**
Colonic epithelium is diffusely abnormal in ulcerative colitis and colorectal cancer, **857**
DNA flow cytometric evaluation of cell cycle distribution in ulcerative colitis: a proposed method for assessing severity of disease, **50**
Enhanced colonic nitric oxide generation and nitric oxide synthase activity in ulcerative colitis and Crohn's disease, **718**
Inceased faecal mucin sulphatase activity in ulcerative colitis: a potential target for treatment, **570**
New salicylates as maintenance treatment in ulcerative colitis: *correspondence*, **640**
Preservation of complete anal sphincteric proprioception in restorative proctocolectomy: the inhibitory reflex and fine control of continence need not be impaired, **902**
South Asian and European colitics show characteristic differences in colonic mucus glycoprotein type and turnover, **696**
Urea breath test, High *Helicobacter pylori* numbers are associated with low eradication rate after triple therapy, **845**
Urea synthesis, Somatostatin prevents the postoperative increases in plasma amino acid clearance and urea synthesis after elective cholecystectomy, **766**
Urinary tract infection, Natural history of bacteriuria in women with primary biliary cirrhosis and the effect of antimicrobial therapy in symptomatic and asymptomatic groups, **931**
Ursodeoxycholic acid
Characterisation of patients with a complete biochemical response to ursodeoxycholic acid, **935**
Composition of gall bladder stones associated with octreotide: response to oral ursodeoxycholic acid, **126**

Vagal gastric acid secretion, Relation of acupuncture and vagal gastric acid secretion: *correspondence*, **800**
Variceal bleeding, Recent advances in the endoscopic management of variceal bleeding: *leading article*, **647**
Variceal haemorrhage, Why portal hypertensive varices bleed and bleed: a hypothesis, **100**
Vascular regulation, Pancreatic vascular regulation in chronic pancreatitis in cats, **133**
Viraemia, Chronic hepatitis C virus infections: predictive value of genotype and level of viraemia on disease progression and response to interferon α, **427**
Viral hepatitis, Ecstasy induced hepatitis mimicking viral hepatitis, **939**
Vitamin D_3, 1,25-dihydroxyvitamin D_3 and retinoid X receptor expression in human colorectal neoplasms, **255**

Wheat, Wheat deficient in gliadins: promising tool for treatment of coeliac disease, **375**

Xanthine oxidase, Caffeine phenotyping of cytochrome P4501A2, *N*-acetyltransferase, and xanthine oxidase in patients with familial adenomatous polyposis, **251**

VOLUME 36: SUBJECT INDEX – SUPPLEMENT No 1

17-1A, Expression of CD44v6 and 17-1A in development and prognosis of colorectal cancer, **A44**

Abdominal computerised tomography, A prospective comparison of abdominal computerised tomography and colonoscopy in the diagnosis of large bowel pathology in an elderly population, **A40**

Achalasia, Autonomic function in patients with achalasia and nutcracker oesophagus, **A28**

Adhesion molecules, Expression of adhesion molecules in chronic liver allograft rejection, **A19**

Allograft rejection
- Expression of adhesion molecules in chronic liver allograft rejection, **A19**
- Importance of concomitant viral infection and treatment during late acute liver allograft rejection, **A31**
- Intercellular adhesion molecule-1 as a predictor of liver allograft rejection, **A32**

Alpha-1 antitrypsin, Validity of alpha-1 antitrypsin as a test of enteric protein loss – upper gastrointestinal origins, **A63**

Ammonium, Effect of *Helicobacter pylori* on gastric mucosal ammonium concentrations, **A9**

Amoxicillin, Gastric ulcer recurrence following treatment with omeprazole and amoxicillin or omeprazole alone, **A22**

Anal fissure
- 'Failed' lateral internal anal sphincterotomy for chronic anal fissure: a study using endoanal ultrasound, **A18**
- Pathophysiological aspects and clinical outcome of intra-anal application of isosorbide-di-nitrate in patients with chronic anal fissure, **A16**

Anal sphincter
- Magnetic resonance imaging of the anal sphincter using an endoanal coil, **A16**
- Seepage of faeces is a marker of internal anal sphincter dysfunction, **A67**
- Sensitivity and specificity of anal endosonography to detect anal sphincter defects compared to EMG, **A17**

Anal sphincterotomy, 'Failed' lateral internal anal sphincterotomy for chronic anal fissure: a study using endoanal ultrasound, **A18**

Anastomotic leak, Self-expanding covered Giaturco stent prevents tumour ingrowth in malignant dysphagia and seals anastomotic leak, **A28**

Angelchik prosthesis, Angelchik – the final nail? **A14**

Anorexia, Circulating cytokines and anorexia in pancreatic cancer patients, **A44**

Antigen:antibody correlations, Antigen:antibody correlations in hepatitis C virus infection, **A2**

Antimicrobial activity, Human terminal ileal mucosa expresses novel antimicrobial activity, **A64**

Antineutrophil cytoplasmic antibodies, Novel IgA antineutrophil cytoplasmic antibodies against phospholipid targets in inflammatory bowel disease, **A57**

Antral gastric histoloty, Effect of omeprazole therapy on *Helicobacter pylori*, urease activity and antral gastric histology in patients with duodenal ulcer, **A21**

Antral intestinal metaplasia, Frequency of antral intestinal metaplasia after *H. pylori* eradication in duodenal ulcer patients, **A11**

Apoptosis, Hydrogen peroxide induces apoptosis in HT-29 cells: a process which is not prevented by inhibition of poly-ADP-ribose polymerase, **A5**

Appendicectomy, Appendicectomy, tonsillectomy and risk of inflammatory bowel disease, **A25**

Arthritis, Jejunal bacteria in arthritis: important in pathogenesis of disease or development of NSAID enteropathy? **A63**

Artificial nutrition supports, Audit of the provision of artificial nutrition supports, **A69**

Ascorbyl radical, The ascorbyl radical is increased in *H. pylori* associated gastritis, **A50**

Aspirin, Non-steroidal anti-inflammatory drugs, aspirin and colorectal cancer: a record-linkage case-control study, **A24**

Atrophic gastritis, Antibodies to CagA protein are associated with atrophic gastritis in *H. pylori* infection, **A45**

Audit, **A33-35**
- An audit of upper gastrointestinal haemorrhage: the effects of a protocol and staff education, **A34**
- Audit of the provision of artificial nutrition supports, **A69**
- Auditing the audits of mortality from upper gastrointestinal haemorrhage: a plea for standardisation of methodology, **A34**
- *H. pylori* eradication for bleeding duodenal ulcer by non-gastroenterologists: an audit, **A35**
- Pitfalls in auditing upper gastrointestinal bleeding, **A34**
- Radical therapy for duodenal ulcer. Progress through audit, **A35**
- Wessex colorectal cancer audit: colostomy rates following colon and rectal surgery, **A23**
- What is the effect of setting up a nutrition team on the provision of total parenteral nutrition in a teaching hospital? A clinical audit, **A36**

Autoimmune hepatitis, Antineutrophil cytoplasmic antibody titre but not IgG subclass distinguishes between primary sclerosing cholangitis and autoimmune hepatitis, **A18**

Autonomic function tests, Autonomic function tests in functional bowel disorders, **A66**

Bactericidal/permeability-increasing protein, Bactericidal/permeability-increasing protein: a novel target antigen for P-ANCA in inflammatory bowel disease, **A57**

Barrett's oesophagus
- Adenocarcinoma of the oesophagogastric junction is associated with Barrett's oesophagus, **A27**
- High incidence of *Helicobacter pylori* colonisation of Barrett's oesophagus, **A38**

Benign peptic strictures, Dilatation of benign peptic strictures, **A71**

Benzalkonium chloride, Antral denervation by benzalkonium chloride leads to gastric retention of solids in the rat, **A52**

Beta$_3$-adrenoceptor agonist, The β_3-adrenoceptor agonist CL316243 prevents indomethacin-induced jejunal ulceration in the rat, **A63**

Bile canalicular membranes, Isolation of copper-binding proteins in bile canalicular membranes: a possible link to copper excretion and Wilson's disease, **A62**

Bile duct stones, Endoscopic biliary endoprosthesis for the management of bile duct stones in high risk groups, **A4**

Biliary tract, **A3-5**

Bleeding units, Specialised bleeding units are the logical way forward in the management of upper gastrointestinal haemorrhage, **A34**

Body composition, Body composition at the bedside, **A7**

Bone marrow transplantation, Iron overload in long term survivors of bone marrow transplantation, **A62**

Bowel, A prospective comparison of abdominal computerised tomography and colonoscopy in the diagnosis of large bowel pathology in an elderly population, **A40**

Bowel disorders, Autonomic function tests in functional bowel disorders, **A66**

Bowel preparation, Bowel preparation at home – are the elderly being put at risk? **A35**

Bran, Effect of bran on colonic targeting of a novel drug delivery system, **A67**

Bromelain protease, Bromelain protease inhibits intestinal secretion caused by *Escherichia coli* heat labile and heat stable toxins and *Vibrio cholerae* cholera toxin, **A55**

Brush cytology, Brush cytology: a reliable method for detecting *Helicobacter pylori* gastric colonization, **A70**

Budd-Chiari syndrome, Mesocaval shunt versus radiological intervention in the treatment of Budd-Chiari syndrome, **A61**

Cadherins, Expression of cadherins (E and P), catenins (α and β) and desmosome in normal and neoplastic human colorectal mucosa, **A44**

CagA expression, CagA expression is related to the severity of the premalignant histological change in the stomach, **A13**

CagA protein
- Antibodies to CagA protein are associated with atrophic gastritis in *H. pylori* infection, **A45**
- Serological evaluationa of *Helicobacter pylori* eradication using recombinant CagA protein, **A46**

CagA status, *H. pylori*-induced disturbance of gastric acid secretion is unrelated to bacterial CagA status, **A11**

Calcium, A randomised trial of 1.5g calcium in patients with colorectal adenomata, **A22**

Calcium homeostasis, Disordered calcium homeostasis in experimental pancreatitis, **A41**

Carbohydrates, The influence of non-digestible carbohydrates on enteroglucagon secretion and mucosal cell proliferation in the rat, **A9**

13Carbon urea breath test, Validation of a non-fasting ^{13}Carbon urea breath test to diagnose *Helicobacter pylori* infection, **A45**

Carbopol 934P, Effect of carbopol 934P on the clinical course of active ulcerative colitis, **A22**

Cardiovascular risk factors, Association of *Helicobacter pylori* infection with coronary heart disease and cardiovascular risk factors, **A12**

Catenins, Expression of cadherins (E and P), catenins (α and ß) and desmosome in normal and neoplastic human colorectal mucosa, **A44**
CD44v6, Expression of CD44v6 and 17-1A in development and prognosis of colorectal cancer, **A44**
Cell adhesion molecules, Possible role of cell adhesion molecules in tumour growth and metastasis, **A17**
Cell biology, **A5-7**
Cholangiocarcinoma, Endoscopic stenting alone and stenting with radiotherapy in non-resectable cholangiocarcinoma, **A5**
Cholecystectomy, Surgical intervention for symptomatic gallstone disease – is there a relationship between preoperative symptoms and the symptomatic outcome?, **A3**
Cholecystokinin, Lectins which bind N-acetylgalactosamine stimulate cholecystokinin release and pancreatic protein secretion in rats, **A8**
Cholera toxin
Comparison of small intestinal 5-HT release in secretory states induced by cholera toxin and *E. coli* heat labile toxin, **A47**
Correlation between duration of cholera toxin exposure and 5-HT levels in small intestinal tissue and lumen, **A47**
Small intestinal water movement in basal and cholera toxin induced secretory states after 5-HT depletion, **A69**
Cholestasis, Hypermanganesaemia and TPN: a cause of cholestasis? **A7**
Cholyl-lysyl fluorescein, Uptake of cholyl-lysyl fluorescein by isolated human hepatocytes, **A18**
Cirrhosis
Differing actions of propranolol and nitrates in cirrhosis – a rationale for combination therapy to prevent variceal haemorrhage? **A61**
Preliminary results of a randomised, controlled trial of TIPSS and variceal band ligation in the prevention of variceal rebleeding in cirrhosis, **A33**
CL316243, The $ß_3$-adrenoceptor agonist CL316243 prevents indomethacin-induced jejunal ulceration in the rat, **A63**
Cl^- hypersecretion, Colonic electrogenic Cl^- hypersecretion induced by starvation: purative involvement of basolateral K^+ conductance, **A9**
Clarithromycin, Patient factors that predict failure of omeprazole, clarithromycin and tinidazole to eradicate *Helicobacter pylori*, **A46**
Clinical trials, **A21-23**
Clostridium difficile, The effects of *C. difficile* toxins A and B on the accumulation of the second messenger inositol 1,4,5-triphosphate in membranes prepared from human duodenal biopsies, **A64**
Coagulation disorders, Management of hepatitis C virus infection in patients with coagulation disorders, **A1**
Coeliac disease
Coeliac disease: measurement of a toxic wheat peptide in gluten-free foods, **A65**
Detection of endomysial and reticulin antibodies in coeliac disease using a single substrate: human umbilical cord, **A53**
Differential binding of gluten peptides to HLA class II molecules correlates with *in vitro* and *in vivo* toxicity in coeliac disease, **A53**
Oats cereal is not toxic in coeliac disease, **A52**
Colchicine, Surrogate markers of response in a trial of ursodeoxycholic acid and colchicine in primary biliary cirrhosis, **A30**
Colitis
Do patients with distal ulcerative colitis undergoing ileal pouch anal anastomosis have a better outcome than those patients with total colitis? **A24**
Microscopic colitis: widening the definition, **A26**
The small intestine in microscopic colitis: mucosal morphology, permeability and secretory immunity to gliadin, **A53**
Collagen production, The localisation of collagen production by in situ hybridisation in primary biliary cirrhosis, **A30**
Colon
A specific role for sodium butyrate in growth arrest of colon cancer cells, **A6**
Crypt proliferation and reproduction in carcinogen or epidermal growth factor treated rat colon, **A5**
Properties of K^+ channels in K^+ secreting rat distal colon, **A48**
Role of SSTR2 receptors in the antisecretory effect of somatostatin in rat distal colon, **A48**
Colonic targeting, Effect of bran on colonic targeting of a novel drug delivery system, **A67**
Colonoscopy
A prospective comparison of abdominal computerised tomography and colonoscopy in the diagnosis of large bowel pathology in an elderly population, **A40**
Is colonoscopy necessary as a first-line investigation in iron deficiency anaemia? **A35**
Colorectal adenomata, A randomised trial of 1.5g calcium in patients with colorectal adenomata, **A22**
Colorectal cancer, **A23-24**
9-*cis* retinoic acid differentially modifies vitamin D_3 action in two human colorectal cancer cell lines, **A7**
Colorectal cancer screening: the effect of combining flexible sigmoidoscopy with a faecal occult blood test, **A23**
Detection of occult nodal metastasis in patients with colorectal cancer, **A43**
Expression of cadherins (E and P), catenins (α and ß) and desmosome in normal and neoplastic human colorectal mucosa, **A44**
Expression of CD44v6 and 17-1A in development and prognosis of colorectal cancer, **A44**
Frequency and type of transmission of hereditary non polyposis colorectal cancer, **A17**
Gastrin and its precursors in human colorectal cancer, **A43**
Inhibition of growth of human colorectal cancer by gastrin receptor antagonism and the significance of gastrin receptor expression, **A18**
Microsatellite instability in sporadic colorectal cancer detected by fluorescent PCR, **A6**
Nuclear p53 overexpression in Dukes' stage B and colorectal cancer, **A7**
Qualitative and quantitative alterations of E-cadherin during colorectal tumorigenesis *in vivo* and *in vitro*, **A6**
Colorectal factors, **A16-18**, A23-27
Colour flow Doppler ultrasonography, The role of duplex and colour flow Doppler ultrasonography in the assessment of TIPSS shunt function, **A20**
Common bile duct exploration, Laparoscopic common bile duct exploration – lessons learned from 129 consecutive cases, **A36**
Copper-binding proteins, Isolation of copper-binding proteins in bile canalicular membranes: a possible link to copper excretion and Wilson's disease, **A62**
Coronary heart disease, Association of *Helicobacter pylori* infection with coronary heart disease and cardiovascular risk factors, **A12**
Cortical swallowing pathways, Can magnetic stimulation of trigeminal and vagal nerve afferents be used to assess brainstem and cortical swallowing pathways? **A66**
Crohn's disease
Controlled study of outcome in ileal Crohn's disease: a comparison of perforating and non-perforating indications for the initial resection, **A25**
Peripheral cell mediated immune response to mycobacteriae in Crohn's disease and controls, **A54**
Persistent measles virus infection in Crohn's disease: confirmation by immunogold electron microscopy, **A55**
Cryotherapy, Cryotherapy and resection for advanced liver carcinoid tumour, **A71**
Crypt proliferation, Crypt proliferation and reproduction in carcinogen or epidermal growth factor treated rat colon, **A5**
Cryptosporidium parvum, Anti-*Cryptosporidium parvum* antibody response in Zambian patients with HIV-related diarrhoea, **A55**
Crypts, K-ras mutations in human colonic aberrant crypts, **A6**
Cyclosporin-A, Cyclosporin-A does not inhibit transcytotic vesicular transport, **A19**
Cyclosporine, Cyclosporine for the treatment of acute steroid resistant ulcerative colitis, **A57**
Cystic fibrosis, Pulmonary arteriovenous shunting in cystic fibrosis patients with chronic liver disease may accelerate cardiopulmonary mortality, **A61**
Cytokines
Circulating cytokines and anorexia in pancreatic cancer patients, **A44**
Cytokines, inflammation and hepatitis C infection, **A2**

Desk top reports, Desk top pictorial endoscopy reports, **A39**
Desmosome, Expression of cadherins (E and P), catenins (α and ß) and desmosome in normal and neoplastic human colorectal mucosa, **A44**
Desulfovibrio spp, *Desulfovibrio* spp: an aetiological agent common to ulcerative colitis and porcine proliferative enteropathy? **A56**
Diabetes, Screening for haemochromatosis in a diabetic clinic, **A62**
Diarrhoea
Anti-*Cryptosporidium parvum* antibody response in Zambian patients with HIV-related diarrhoea, **A55**
Intestinal dysmotility in human immunodeficiency virus seropositive subjects with diarrhoea, **A70**
Is diarrhoea complicating intragastric enteral feeding caused by an abnormal peptide YY response?, **A8**
Is tuberculous enteritis important in African slim disease? **A64**
T-cell activation in the small intestinal mucosa of African AIDS patients with chronic diarrhoea, **A54**
Dilatation, Dilatation of benign peptic strictures, **A71**
Distal oesophagus, Spectrum of bile acid reflux in gastro-oesophageal reflux disease using a new device to sample the distal oesophagus, **A29**
Drinking, Drinking before endoscopy is safe, **A38**
Drug delivery system, Effect of bran on colonic targeting of a novel drug delivery system, **A67**
Duodenal gastric metaplasia
Relationship between *H. pylori* infection, inflammation and duodenal gastric metaplasia, **A11**
The effect of *Helicobacter pylori* eradication on gastric metaplasia in the duodenal bulb, **A11**

Duodenal ulcer
Effect of omeprazole therapy on *Helicobacter pylori*, urease activity and antral gastric histology in patients with duodenal ulcer, **A21**
H. pylori eradication for bleeding duodenal ulcer by non-gastroenterologists: an audit, **A35**
Radical therapy for duodenal ulcer. Progress through audit, **A35**
Recurrence of duodenal ulcer after *Helicobacter pylori* eradication is related to high gastric acid output, **A50**
Duodenal ulcer disease, Pathogenesis of gastric metaplasia in duodenal ulcer disease, **A51**
Dyspepsia
Effect of *H. pylori* eradication on the severity of dyspeptic symptoms in DU patients, **A12**
H. pylori infection and dyspepsia within the general population, **A50**
Is absence of dyspeptic symptoms a useful test to assess *H. pylori* eradication? **A12**
Dysphagia
Intraluminal radiotherapy for the palliation of dysphagia in patients with inoperable carcinoma of the proximal stomach, **A45**
Self-expanding covered Giaturco stent prevents tumour ingrowth in malignant dysphagia and seals anastomotic leak, **A28**

E-cadherin, Qualitative and quantitative alterations of E-cadherin during colorectal tumorigenesis *in vivo* and *in vitro*, **A6**
Echo planar imaging, Use of echo planar imaging to assess effect of posture on intragastric distribution of lipid and gastric emptying, **A52**
Echogenic bile, Echogenic bile – what is the significance? **A42**
Electron energy loss spectroscopy, Assessment of gastric mucosal and mucus layer elemental trace metals in *H. pylori* gastritis using the novel technique of electron energy loss spectroscopy, **A10**
Endoanal coil, Magnetic resonance imaging of the anal sphincter using an endoanal coil, **A16**
Endoluminal ultrasonography, Endoluminal ultrasonography in staging of oesophageal cancer – the influence of endoscopic dilatation, **A27**
Endomysial antibodies, Detection of endomysial and reticulin antibodies in coeliac disease using a single substrate: human umbilical cord, **A53**
Endopeptidase 24:11, Intestinal expression and activity of neutral endopeptidase 24:11 in man, **A49**
Endoprosthesis, Endoscopic biliary endoprosthesis for the management of bile duct stones in high risk groups, **A4**
Endoscopy, **A37-40**
Efficacy of percutaneous endoscopic gastrostomy versus nasogastric tube in enteral nutrition, **A68**
Enteral feeding, Effect of enteral feeding on post natal splanchnic haemodynamics in human preterm neonates, **A69**
Enteroglucagon, The influence of non-digestible carbohydrates on enteroglucagon secretion and mucosal cell proliferation in the rat, **A9**
Epidermal growth factor
Crypt proliferation and reproduction in carcinogen or epidermal growth factor treated rat colon, **A5**
Distribution of the EGF-receptor in the normal human gastrointestinal tract, **A5**
The ontogenic role of EGF in the developing human stomach, **A51**
ERCP
Criteria for ERCP in the laparoscopic era, **A3**
Diagnostic and therapeutic ERCP on outpatients – is it safe and cost effective? **A36**
ERCP-related pancreatitis, ERCP-related pancreatitis: the danger of leaving an obstructed biliary system, **A4**
Escherichia coli
Bromelain protease inhibits intestinal secretion caused by *Escherichia coli* heat labile and heat stable toxins and *Vibrio cholerae* cholera toxin, **A55**
P-fimbriated *Escherichia coli* adhere to differentiated intestinal epithelial cells (Caco-2) and stimulate production of interleukin-8, **A55**

Faecal incontinence, Long term results of total pelvic floor repair for neuropathic faecal incontinence, **A16**
Faecal pancreatic elastase 1, Faecal pancreatic elastase 1 assay as a diagnostic test for chronic pancreatitis, **A41**
Familial adenomatous polyposis, Photodynamic therapy for the endoscopic treatment of polyps in familial adenomatous polyposis, **A39**
Famotidine, High dose famotidine for healing and subsequent maintenance in non-steroidal anti-inflammatory drug-associated gastroduodenal ulceration, **A59**
Fibrosis, Detection of insulin-like growth factor 1 in whole gut lavage fluid: a novel method of studying intestinal fibrosis, **A49**
5-Fluorouracil, Infusional 5-fluorouracil with interferon is well tolerated and provides useful palliation in patients with symptomatic malignant neuroendocrine tumours, **A42**
Follicular gastritis, The incidence and severity of follicular gastritis in cases of gastric carcinoma, **A13**
Fundoplication
Laparoscopic Nissen fundoplication – lessons learned from 200 consecutive cases, **A28**
Randomised controlled trial of Nissen versus Lind fundoplication: results at ten year follow-up, **A14**

Gallbladder, Prostaglandins contract and relax human gallbladder *in vitro*, **A66**
Gallbladder motility, Role of gallbladder motility defects in pathogenesis of gallstone recurrence, **A66**
Gallstones
Biliary phospholipids and mucin glycoprotein are altered in octreotide-induced gallstones, **A47**
Efficacy of ursodeoxycholic acid alone and with chenodeoxycholic acid for cholesterol gallstone dissolution, **A42**
Role of gallbladder motility defects in pathogenesis of gallstone recurrence, **A66**
TUDCA treatment of gallstones in patients at high risk for surgery, **A47**
Gardner's syndrome, Severe Gardner's syndrome in families with mutations restricted to a specific region of the *APC* gene, **A43**
Gastric acid output, Recurrence of duodenal ulcer after *Helicobacter pylori* eradication is related to high gastric acid output, **A50**
Gastric acid secretion, *H. pylori*-induced disturbance of gastric acid secretion is unrelated to bacterial CagA status, **A11**
Gastric cancer
Adjuvant mitomycin C after radical surgery for gastric cancer: effect on cell mediated immunity, **A43**
Intraluminal radiotherapy for the palliation of dysphagia in patients with inoperable carcinoma of the proximal stomach, **A45**
Lack of a simple explanation for gastric tumours induced by H_2 antagonists in rats, **A52**
Gastric carcinoma, The incidence and severity of follicular gastritis in cases of gastric carcinoma, **A13**
Gastric emptying, Use of echo planar imaging to assess effect of posture on intragastric distribution of lipid and gastric emptying, **A52**
Gastric juice, Effect of omeprazole on the distribution of antibiotics in gastric juice, **A21**
Gastric lymphoma, Is *Helicobacter pylori* infection of any significance in the aetiology of primary gastric lymphoma? **A13**
Gastric metaplasia, Pathogenesis of gastric metaplasia in duodenal ulcer disease, **A51**
Gastric ulcer, Gastric ulcer recurrence following treatment with omeprazole and amoxicillin or omeprazole alone, **A22**
Gastric ulcer formation, **A58-60**
Gastrin, Gastrin and its precursors in human colorectal cancer, **A43**
Gastrin mRNA, Changes in the expression of somatostatin and gastrin mRNA in response to gastrin releasing peptide are altered by *H. pylori* infection, **A50**
Gastrin receptor, Inhibition of growth of human colorectal cancer by gastrin receptor antagonism and the significance of gastrin receptor expression, **A18**
Gastritis, The ascorbyl radical is increased in *H. pylori* associated gastritis, **A50**
Gastro-oesophageal malignancy, Laparoscopic ultrasonography in the staging of gastro-oesophageal malignancy, **A37**
Gastro-oesophageal reflux
Causes of failure to respond to omeprazole in 44 patients with gastro-oesophageal reflux symptoms, **A14**
Effect of weight loss of symptoms of gastro-oesophageal reflux, **A29**
Is laparoscopic fundoplication a more attractive option than long-term omeprazole in gastro-oesophageal reflux disease? **A14**
Spectrum of bile acid reflux in gastro-oesophageal reflux disease using a new device to sample the distal oesophagus, **A29**
Gastroenterology, Providing an effective clinical service in gastroenterology: the value of information, **A33**
General practice, Open access gastroscopy in general practice: seven months experience, **A38**
Giaturco stent, Self-expanding covered Giaturco stent prevents tumour ingrowth in malignant dysphagia and seals anastomotic leak, **A28**
Gliadin
In vivo activity of peptides 31-43, 44-55, 56-68 of α-gliadin in gluten sensitive enteropathy, **A53**
Rectal challenge with highly purified omega-gliadin identifies the repeat octapeptide PQQPFPQQ as an immunopathological moiety in gluten sensitized subjects, **A65**
The small intestine in microscopic colitis: mucosal morphology, permeability and secretory immunity to gliadin, **A53**
Glutamine
Does the addition of glutamine to intravenous nutrition prevent immunosuppression following major surgery? **A8**
Oral glutamine challenge in cirrhotics awaiting liver transplantation: a psychometric and analysed EEG study, **A31**

Gluten
Coeliac disease: measurement of a toxic wheat peptide in gluten-free foods, **A65**
Differential binding of gluten peptides to HLA class II molecules correlates with *in vitro* and *in vivo* toxicity in coeliac disease, **A53**
Rectal challenge with highly purified omega-gliadin identifies the repeat octapeptide PQQPFPQQ as an immunopathological moiety in gluten sensitized subjects, **A65**
Gluten sensitive enteropathy, *In vivo* activity of peptides 31-43, 44-55, 56-68 of α-gliadin in gluten sensitive enteropathy, **A53**
Glyceryl trinitrate, Glyceryl trinitrate does not reduce thrombophlebitis during full intravenous nutrition through a peripheral vein, **A8**
Glycoprotein, Biliary phospholipids and mucin glycoprotein are altered in octreotide-induced gallstones, **A47**
Glycosylation profile, Immunoglobulin G glycosylation profile in chronic liver diseases, **A20**
GROα, Inflammatory stimuli activate secretion of IL-8 and GROα but not RANTES in human colonic epithelial cells *in vitro*, **A48**

H_2 antagonists, Lack of a simple explanation for gastric tumours induced by H_2 antagonists in rats, **A52**
Haemochromatosis, Screening for haemochromatosis in a diabetic clinic, **A62**
***Helicobacter pylori*, A9-13**
A new short, highly effective *Helicobacter pylori* eradication regime, **A21**
A randomised trial of 3 eradication regimes for *Helicobacter pylori*, **A21**
Antibodies to CagA protein are associated with atrophic gastritis in *H. pylori* infection, **A45**
Brush cytology: a reliable method for detecting *Helicobacter pylori* gastric colonization, **A70**
Changes in the expression of somatostatin and gastrin mRNA in response to gastrin releasing peptide are altered by *H. pylori* infection, **A50**
Effect of omeprazole therapy on *Helicobacter pylori*, urease activity and antral gastric histology in patients with duodenal ulcer, **A21**
H. pylori eradication for bleeding duodenal ulcer by non-gastroenterologists: an audit, **A35**
H. pylori infection and dyspepsia within the general population, **A50**
Helicobacter pylori does not influence gastric mucosal adaptation to NSAIDs in man, **A60**
High incidence of *Helicobacter pylori* colonisation of Barrett's oesophagus, **A38**
Patient factors that predict failure of omeprazole, clarithromycin and tinidazole to eradicate *Helicobacter pylori*, **A46**
Recurrence of duodenal ulcer after *Helicobacter pylori* eradication is related to high gastric acid output, **A50**
Serological evaluationa of *Helicobacter pylori* eradication using recombinant CagA protein, **A46**
The ascorbyl radical is increased in *H. pylori* associated gastritis, **A50**
The effect of *H. pylori* infection on the expression of somatostatin mRNA in the gastric antrum and corpus, **A45**
Validation of a non-fasting ^{13}carbon urea breath test to diagnose *Helicobacter pylori* infection, **A45**
Validation of a rapid whole blood test for the diagnosis of *Helicobacter pylori* infection, **A51**
Hepatectomy, Hepatectomy in the management of critically ill patients with acute liver failure, **A32**
Hepatic failure, Induction of nitric oxide synthase in the hepatic artery during hepatic failure in man, **A19**
Hepatitis, Long-term follow-up of chronic active hepatitis in Wales: results of a close-control treatment regimen, **A62**
Hepatitis B virus, Treatment of hepatitis B virus recurrence in liver transplant recipients, **A32**
Hepatitis C, A1-2
Hepatitis C virus, Intrafamilial transmission of anti-D associated Hepatitis C virus – a zero risk? **A60**
Hepatocellular carcinoma, Chemoembolization for hepatocellular carcinoma: applicability and response in British patients, **A44**
Hepatocytes, Uptake of cholyl-lysyl fluorescein by isolated human hepatocytes, **A18**
Hepatorenal reflex, Role of neuro humoral factors in the mediation of the "hepatorenal reflex", **A33**
Hilar strictures, The management of high grade hilar strictures by the endoscopic insertion of self-expanding metal endoprostheses, **A37**
HIV
Anti-*Cryptosporidium parvum* antibody response in Zambian patients with HIV-related diarrhoea, **A55**
Intestinal dysmotility in human immunodeficiency virus seropositive subjects with diarrhoea, **A70**
Small bowel transit in HIV-seropositive individuals, **A70**
HT-29 cells, Hydrogen peroxide induces apoptosis in HT-29 cells: a process which is not prevented by inhibition of poly-ADP-ribose polymerase, **A5**
Hydrogen peroxide, Hydrogen peroxide induces apoptosis in HT-29 cells: a process which is not prevented by inhibition of poly-ADP-ribose polymerase, **A5**
Hydrophobicity, Gastric mucosal hydrophobicity and *H. pylori* infection density: a mechanism for peptic ulcer pathogenesis? **A10**
5-Hydroxytryptamine
Comparison of small intestinal 5-HT release in secretory states induced by cholera toxin and *E. coli* heat labile toxin, **A47**
Correlation between duration of cholera toxin exposure and 5-HT levels in small intestinal tissue and lumen, **A47**
Small intestinal water movement in basal and cholera toxin induced secretory states after 5-HT depletion, **A69**
Hypermanganesaemia, Hypermanganesaemia and TPN: a cause of cholestasis?, **A7**

Ibuprofen, Acute gastric tolerability of S(+) ibuprofen compared to racemic ibuprofen, **A59**
IgM anti-HCV testing, IgM-HCV testing may reduce need for PCR testing, **A1**
Immunosuppression, Does the addition of glutamine to intravenous nutrition prevent immunosuppression following major surgery?, **A8**
In situ hybridisation, The localisation of collagen production by in situ hybridisation in primary biliary cirrhosis, **A30**
Indomethacin
Antral and corpus indomethacin-induced gastric ulceration is dependent on the distribution of mucosal contractile cells, **A59**
Combined intestinal trefoil factor and epidermal growth factor is prophylactic against indomethacin induced gastric damage in the rat, **A58**
Indomethacin-induced jejunal villous contraction and microvascular occlusion, **A58**
The $ß_3$-adrenoceptor agonist CL316243 prevents indomethacin-induced jejunal ulceration in the rat, **A63**
Inflammation, Cytokines, inflammation and hepatitis C infection, **A2**
Inflammatory bowel disease
Adequacy of information and concerns of patients with juvenile onset IBD, **A67**
Anti-epithelial cell antibodies in familial inflammatory bowel disease and their relatives, **A26**
Appendicectomy, tonsillectomy and risk of inflammatory bowel disease, **A25**
Bactericidal/permeability-increasing protein: a novel target antigen for P-ANCA in inflammatory bowel disease, **A57**
Biliary lactoferrin concentrations are increased in active inflammatory bowel disease: a factor in the pathogenesis of primary sclerosing cholangitis? **A56**
Childhood domestic hygiene, *Helicobacter pylori* infection and inflammatory bowel disease: is there an association? **A12**
Correlation between interleukin-8, interferon-gamma, interleukin-10 mRNA levels and histological activity in inflammatory bowel disease, **A49**
Early determinants of inflammatory bowel disease: use of two national longitudinal birth cohorts, **A25**
Genetics vs environment in inflammatory bowel disease: concordance rates in 130 twin pairs, **A25**
Novel IgA antineutrophil cytoplasmic antibodies against phospholipid targets in inflammatory bowel disease, **A57**
Psychological morbidity in inflammatory bowel disease – a case for psychological counselling? **A67**
Sex differences in the health locus of control and learned illness behaviour in patients with the irritable bowel syndrome and inflammatory bowel disease, **A16**
Information, Providing an effective clinical service in gastroenterology: the value of information, **A33**
Injection sclerotherapy, Multicentre trial of octreotide versus injection sclerotherapy for acute variceal haemorrhage, **A38**
Insulin-like growth factor, Detection of insulin-like growth factor 1 in whole gut lavage fluid: a novel method of studying intestinal fibrosis, **A49**
Interferon, Infusional 5-fluorouracil with interferon is well tolerated and provides useful palliation in patients with symptomatic malignant neuroendocrine tumours, **A42**
Interferon alpha
Hepatitis C infection and alpha-interferon therapy in patients with normal transaminases, **A1**
Treatment of acute hepatitis C with alpha interferon in hypogammaglobulinaemia. The UK Gammagard outbreak, **A2**
Interferon-gamma
Correlation between interleukin-8, interferon-gamma, interleukin-10 mRNA levels and histological activity in inflammatory bowel disease, **A49**
Production of interferon-gamma by liver and peripheral blood T-lymphocytes in primary sclerosing cholangitis, **A19**
Interleukin-6, Induction of prostaglandin mediated regulation of blood mononuclear cell interleukin-6 release in patients with acute pancreatitis, **A40**

Interleukin-8
Bacterial lipopolysaccharide stimulates interleukin-8 secretion from colonic cell lines, **A49**
Inflammatory stimuli activate secretion of IL-8 and GROα but not RANTES in human colonic epithelial cells *in vitro*, **A48**
P-fimbriated *Escherichia coli* adhere to differentiated intestinal epithelial cells (Caco-2) and stimulate production of interleukin-8, **A55**
Use of a new enzyme linked PCR assay to show increased inducible nitric oxide synthase and interleukin 8 mRNA in ulcerative colitis, **A56**
Interleukins, Correlation between interleukin-8, interferon-gamma, interleukin-10 mRNA levels and histological activity in inflammatory bowel disease, **A49**
Intestinal trefoil factor, Combined intestinal trefoil factor and epidermal growth factor is prophylactic against indomethacin induced gastric damage in the rat, **A58**
Intra-abdominal abscess, Comparison of 99m technetium-HMPAO labelled leucocyte with 111-indium labelled granulocyte scanning and ultrasound in the diagnosis of intra-abdominal abscess, **A64**
Intraluminal oesophageal distension, Oesophageal wall tension not distension pressure or volme determines sensation in man, **A15**
Intraluminal radiotherapy, Intraluminal radiotherapy for the palliation of dysphagia in patients with inoperable carcinoma of the proximal stomach, **A45**
Intravenous nutrition
The basilic is the vein of choice for peripheral infusion of intravenous nutrition, **A68**
Thrombophlebitis is established before occlusion of the vein occurs during infusion of intravenous nutrition, **A68**
Iron, Iron overload in long term survivors of bone marrow transplantation, **A62**
Iron deficiency, Iron deficiency in general practice, **A46**
Iron deficiency anaemia, Is colonoscopy necessary as a first-line investigation in iron deficiency anaemia? **A35**
Irritable bowel syndrome, Sex differences in the health locus of control and learned illness behaviour in patients with the irritable bowel syndrome and inflammatory bowel disease, **A16**
Isosorbide-di-nitrate, Pathophysiological aspects and clinical outcome of intra-anal application of isosorbide-di-nitrate in patients with chronic anal fissure, **A16**

Jaundice, Will laparoscopic biliary bypass replace endoscopic stenting for malignant obstructive jaundice? **A4**
Jejunal bacteria, Jejunal bacteria in arthritis: important in pathogenesis of disease or development of NSAID enteropathy? **A63**
Jejunal biopsy, Small bowel enteroscopy: should jejunal biopsy be routine? **A39**
Jejunal lesions, Jejunal lesions in human non-steroidal anti-inflammatory drug enteropathy, **A54**
Jejunal ulceration
Antral and corpus indomethacin-induced gastric ulceration is dependent on the distribution of mucosal contractile cells, **A59**
The β_1-adrenoceptor agonist CL316243 prevents indomethacin-induced jejunal ulceration in the rat, **A63**
Jejunal villous contraction, Indomethacin-induced jejunal villous contraction and microvascular occlusion, **A58**

K^+ channels, Properties of K^+ channels in K^+ secreting rat distal colon, **A48**
K-ras mutations, K-ras mutations in human colonic aberrant crypts, **A6**

Lactase, Small intestinal lactase status, frequency distribution of enzyme activity and milk intake in west Birmingham, **A54**
Lactoferrin, Biliary lactoferrin concentrations are increased in active inflammatory bowel disease: a factor in the pathogenesis of primary sclerosing cholangitis? **A56**
Lansoprazole, Lansoprazole provides greater symptom relief than omeprazole in reflux oesophagitis, **A23**
Laparoscopic biliary bypass, Will laparoscopic biliary bypass replace endoscopic stenting for malignant obstructive jaundice? **A4**
Laparoscopic biliary and gastric bypass, Laparoscopic biliary and gastric bypass – a useful adjunct in the management of carcinoma of the pancreas, **A3**
Laparoscopic cholecystectomy, Laparoscopic common bile duct exploration – lessons learned from 129 consecutive cases, **A36**
Laparoscopic ultrasonography, Laparoscopic ultrasonography in the staging of gastro-oesophageal malignancy, **A37**
Laparoscopy, Local recurrence after standard and laparoscopically assisted excision of colorectal carcinomas, **A24**
Laser treatment, Prospective randomised trial of laser treatment versus laser followed by brachytherapy for palliation of oesophageal carcinoma (preliminary report), **A37**
Laxatives, Do we use laxatives rationally in hospital in-patients? **A36**
Lectins, Lectins which bind N-acetylgalactosamine stimulate cholecystokinin release and pancreatic protein secretion in rats, **A8**
Lipids, Use of echo planar imaging to assess effect of posture on intragastric distribution of lipid and gastric emptying, **A52**
Lipopolysaccharide, Bacterial lipopolysaccharide stimulates interleukin-8 secretion from colonic cell lines, **A49**
Liver, **A18-20**, **A30-33**, **A60-62**
Liver carcinoid tumour, Cryotherapy and resection for advanced liver carcinoid tumour, **A71**
Liver failure
Alterations in hepatic haemodynamics may contribute to the abnormalities in renal blood flow in liver failure, **A33**
Hepatectomy in the management of critically ill patients with acute liver failure, **A32**
Liver transplantation
Importance of concomitant viral infection and treatment during late acute liver allograft rejection, **A31**
Intercellular adhesion molecule-1 as a predictor of liver allograft rejection, **A32**
Liver transplantation for the over sixties? **A31**
Oral glutamine challenge in cirrhotics awaiting liver transplantation: a psychometric and analysed EEG study, **A31**
Osteopenia after liver transplantation: an over-estimated risk? **A20**
QT interval prolongation and autonomic dysfunction in endstage liver disease: effect of liver transplantation, **A31**
Repeat HLA mismatches improve survival after second liver transplantation, **A60**
TIPS transplantation and surgical shunts, **A60**
Treatment of hepatitis B virus recurrence in liver transplant recipients, **A32**
Lymphocytes, Lymphocyte phenotypes in chronic hepatitis C infection: a correlation with disease activity, **A1**
Lymphoma, Is *Helicobacter pylori* infection of any significance in the aetiology of primary gastric lymphoma? **A13**

Magnetic resonance imaging
Endoscopic magnetic resonance imaging of the oesophagus using a dedicated surface receive coil, **A37**
Magnetic resonance imaging of the anal sphincter using an endoanal coil, **A16**
Mallory-Weiss tear, Mallory-Weiss revisited, **A13**
Manometry
24-hour manometry is essential to diagnose diffuse oesophageal spasm, **A29**
Oesophageal motility disorders should be classified on the basis of abnormal neurophysiology rather than manometry, **A65**
Measles virus infection, Persistent measles virus infection in Crohn's disease: confirmation by immunogold electron microscopy, **A55**
Mesalazine, A pharmacokinetic study of single and divided dose delayed-release mesalazine, **A57**
Mesocaval shunt, Mesocaval shunt versus radiological intervention in the treatment of Budd-Chiari syndrome, **A61**
Metal absorption, The gut mucus layer regulates metal absorption? **A48**
Metatetrahydroxyphenylchlorin, Photodynamic therapy for cancer in the hamster pancreas using metatetrahydroxyphenylchlorin, **A41**
Methotrexate, Low-dose methotrexate in treatment of primary biliary cirrhosis, **A30**
Microcirculation, The role of gastric mucosal microcirculation in ulcer formation, **A58**
Microsatellite instability, Microsatellite instability in sporadic colorectal cancer detected by fluorescent PCR, **A6**
Microscopic colitis, The small intestine in microscopic colitis: mucosal morphology, permeability and secretory immunity to gliadin, **A53**
Microsporidiosis, The treatment of microsporidiosis with thalidomide, **A23**
Microvascular occlusion, Indomethacin-induced jejunal villous contraction and microvascular occlusion, **A58**
Mitomycin C, Adjuvant mitomycin C after radical surgery for gastric cancer: effect on cell mediated immunity, **A43**
Motility disorders, The natural history of primary oesophageal motility disorders, **A15**
Mucosal cells proliferation, The influence of non-digestible carbohydrates on enteroglucagon secretion and mucosal cell proliferation in the rat, **A9**
Mucosal neurotransmitters, Changes in mucosal neurotransmitters in patients with reflux oesophagitis, **A29**

Neuroendocrine tumours, Infusional 5-fluorouracil with interferon is well tolerated and provides useful palliation in patients with symptomatic malignant neuroendocrine tumours, **A42**
Nitrates, Differing actions of propranolol and nitrates in cirrhosis – a rationale for combination therapy to prevent variceal haemorrhage? **A61**

Nitric oxide synthase
High expression of iNOS in colonic mucosa in ulcerative colitis, **A56**
Induction of nitric oxide synthase in the hepatic artery during hepatic failure in man, **A19**
Is gastric mucosal nitric oxide synthase activity increased in patients with *H. pylori* associated duodenal ulceration?, **A10**
Use of a new enzyme linked PCR assay to show increased inducible nitric oxide synthase and interleukin 8 mRNA in ulcerative colitis, **A56**
Non cardiac chest pain, Hyperventilation and oesophageal dysmotility in patients with non cardiac chest pain, **A15**
Non-steroidal anti-inflammatory drugs, **A58-60**
Jejunal bacteria in arthritis: important in pathogenesis of disease or development of NSAID enteropathy? **A63**
Jejunal lesions in human non-steroidal anti-inflammatory drug enteropathy, **A54**
Non-steroidal anti-inflammatory drugs, aspirin and colorectal cancer: a record-linkage case-control study, **A24**
Nurse practitioners, Endoscopy nurse practitioners: prospective evaluation as first assistant at PEG tube insertion, **A39**
Nutcracker oesophagus, Autonomic function in patients with achalasia and nutcracker oesophagus, **A28**
Nutrition, **A7-A9**, **A68-70**
Nutrition team, What is the effect of setting up a nutrition team on the provision of total parenteral nutrition in a teaching hospital? A clinical audit, **A36**

Oats cereal, Oats cereal is not toxic in coeliac disease, **A52**
Octreotide, Multicentre trial of octreotide versus injection sclerotherapy for acute variceal haemorrhage, **A38**
Octreotide-induced gallstones, Biliary phospholipids and mucin glycoprotein are altered in octreotide-induced gallstones, **A47**
Oesophageal cancer
Endoluminal ultrasonography in staging of oesophageal cancer – the influence of endoscopic dilatation, **A27**
Management of strictures after radiotherapy for treatment of oesophageal cancer, **A28**
Quality life assessment is an important tool in measuring outcome in patients undergoing treatment for carcinoma of the oesophagus, **A27**
Oesophageal carcinoma, Prospective randomised trial of laser treatment versus laser followed by brachytherapy for palliation of oesophageal carcinoma (preliminary report), **A37**
Oesophageal motility
Does healing of oesophagitis improve ambulatory oesophageal motility and pH profile? **A65**
Oesophageal motility disorders should be classified on the basis of abnormal neurophysiology rather than manometry, **A65**
Oesophagitis
Does healing of oesophagitis improve ambulatory oesophageal motility and pH profile? **A65**
Three year follow-up of oesophagitis with endoscopy and oesophageal pH monitoring, **A15**
Oesophagus, **A13-15**, **A27-29**
Endoscopic magnetic resonance imaging of the oesophagus using a dedicated surface receive coil, **A37**
Omeprazole
Causes of failure to respond to omeprazole in 44 patients with gastro-oesophageal reflux symptoms, **A14**
Effect of omeprazole on the distribution of antibiotics in gastric juice, **A21**
Effect of omeprazole therapy on *Helicobacter pylori*, urease activity and antral gastric histology in patients with duodenal ulcer, **A21**
Gastric ulcer recurrence following treatment with omeprazole and amoxicillin or omeprazole alone, **A22**
Is laparoscopic fundoplication a more attractive option than long-term omeprazole in gastro-oesophageal reflux disease? **A14**
Lansoprazole provides greater symptom relief than omeprazole in reflux oesophagitis, **A23**
Patient factors that predict failure of omeprazole, clarithromycin and tinidazole to eradicate *Helicobacter pylori*, **A46**
Open access gastroscopy, Open access gastroscopy in general practice: seven months experience, **A38**
Osteopenia, Osteopenia after liver transplantation: an over-estimated risk? **A20**

p53 overexpression, Nuclear p53 overexpression in Dukes' stage B and colorectal cancer, **A7**
Pain, Is common bile duct dysmotility a common cause of post-cholecystectomy biliary pain?, **A3**
Pancreatic cancer, Circulating cytokines and anorexia in pancreatic cancer patients, **A44**
Pancreatic carcinoma, Laparoscopic biliary and gastric bypass – a useful adjunct in the management of carcinoma of the pancreas, **A3**
Pancreatitis, **A40-42**
ERCP-related pancreatitis: the danger of leaving an obstructed biliary system, **A4**
Is intervention necessary after a first attack of idiopathic acute pancreatitis?, **A4**
Pelvic floor repair, Long term results of total pelvic floor repair for neuropathic faecal incontinence, **A16**
Pelvic pouch, The perfect pelvic pouch for ulcerative colitis, **A24**
Pepsin, 24 hour pepsin activity in human subjects, **A51**
Peptic ulcer disease, Peptic ulcer disease in Scotland: the therapeutic challenges, **A46**
Peptide YY, Is diarrhoea complicating intragastric enteral feeding caused by an abnormal peptide YY response?, **A8**
Percutaneous endoscopic gastrostomy
Change in user's perspective of percutaneous endoscopic gastrostomy after adoption of a team approach, **A69**
Efficacy of percutaneous endoscopic gastrostomy versus nasogastric tube in enteral nutrition, **A68**
Endoscopy nurse practitioners: prospective evaluation as first assistant at PEG tube insertion, **A39**
pH monitoring, Three year follow-up of oesophagitis with endoscopy and oesophageal pH monitoring, **A15**
pH profile, Does healing of oesophagitis improve ambulatory oesophageal motility and pH profile? **A65**
Phospholipids
Biliary phospholipids and mucin glycoprotein are altered in octreotide-induced gallstones, **A47**
Novel IgA antineutrophil cytoplasmic antibodies against phospholipid targets in inflammatory bowel disease, **A57**
Photodynamic therapy
Photodynamic therapy for cancer in the hamster pancreas using metatetrahydroxyphenylchlorin, **A41**
Photodynamic therapy for the endoscopic treatment of polyps in familial adenomatous polyposis, **A39**
Portal hypertensive jejunopathy, A prospective study of portal hypertensive jejunopathy, **A61**
Post-cholecystectomy pain, Is common bile duct dysmotility a common cause of post-cholecystectomy biliary pain? **A3**
Pre-cut papillotomy, Pre-cut papillotomy: dangerous desire or definitive device, **A70**
Pregnancy, Pregnancy is associated with subsequent reduced rectal maximal threshold pressure, **A17**
Preterm neonates, Effect of enteral feeding on post natal splanchnic haemodynamics in human preterm neonates, **A69**
Primary biliary cirrhosis
Effect of ursodeoxycholic acid on serum markers of fibrosis in primary biliary cirrhosis, **A30**
Low-dose methotrexate in treatment of primary biliary cirrhosis, **A30**
Surrogate markers of response in a trial of ursodeoxycholic acid and colchicine in primary biliary cirrhosis, **A30**
The localisation of collagen production by in situ hybridisation in primary biliary cirrhosis, **A30**
Propranolol, Differing actions of propranolol and nitrates in cirrhosis – a rationale for combination therapy to prevent variceal haemorrhage? **A61**
Prostaglandins, Prostaglandins contract and relax human gallbladder *in vitro*, **A66**
Psychological morbidity, Psychological morbidity in inflammatory bowel disease – a case for psychological counselling? **A67**
Pulmonary arteriovenous shunting, Pulmonary arteriovenous shunting in cystic fibrosis patients with chronic liver disease may accelerate cardiopulmonary mortality, **A61**

QT interval, QT interval prolongation and autonomic dysfunction in endstage liver disease: effect of liver transplantation, **A31**
Quality life assessment, Quality life assessment is an important tool in measuring outcome in patients undergoing treatment for carcinoma of the oesophagus, **A27**

Radiotherapy, Management of strictures after radiotherapy for treatment of oesophageal cancer, **A28**
RANTES, Inflammatory stimuli activate secretion of IL-8 and GROα but not RANTES in human colonic epithelial cells *in vitro*, **A48**
Reactive oxygen species Reactive oxygen species activity and damage in *Helicobacter pylori* associated gastritis – effect of eradication therapy, **A10**
Rectal maximal threshold pressure, Pregnancy is associated with subsequent reduced rectal maximal threshold pressure, **A17**
Reflux oesophagitis
Changes in mucosal neurotransmitters in patients with reflux oesophagitis, **A29**
Lansoprazole provides greater symptom relief than omeprazole in reflux oesophagitis, **A23**
Renal blood flow, Alterations in hepatic haemodynamics may contribute to the abnormalities in renal blood flow in liver failure, **A33**

Renal function, Mechanisms of changes in renal function following TIPSS, **A32**
Reticulin antibodies, Detection of endomysial and reticulin antibodies in coeliac disease using a single substrate: human umbilical cord, **A53**
Retinoic acid, 9-*cis* retinoic acid differentially modifies vitamin D_3 action in two human colorectal cancer cell lines, **A7**
Rheumatoid factors, Elevation of IgA and IgM rheumatoid factors in chronic liver disease, **A20**

Sclerosing cholangitis
Antineutrophil cytoplasmic antibody titre but not IgG subclass distinguishes between primary sclerosing cholangitis and autoimmune hepatitis, **A18**
Biliary lactoferrin concentrations are increased in active inflammatory bowel disease: a factor in the pathogenesis of primary sclerosing cholangitis? **A56**
Production of interferon-gamma by liver and peripheral blood T-lymphocytes in primary sclerosing cholangitis, **A19**
Self expanding metal endoprostheses, The management of high grade hilar strictures by the endoscopic insertion of self-expanding metal endoprostheses, **A37**
Small bowel, **A52-54**
Comparison of small intestinal 5-HT release in secretory states induced by cholera toxin and *E. coli* heat labile toxin, **A47**
Correlation between duration of cholera toxin exposure and 5-HT levels in small intestinal tissue and lumen, **A47**
Small bowel enteroscopy: should jejunal biopsy be routine? **A39**
Small bowel transit in HIV-seropositive individuals, **A70**
Small intestinal water movement in basal and cholera toxin induced secretory states after 5-HT depletion, **A69**
Sodium butyrate, A specific role for sodium butyrate in growth arrest of colon cancer cells, **A6**
Somatostatin, Changes in the expression of somatostatin and gastrin mRNA in response to gastrin releasing peptide are altered by *H. pylori* infection, **A50**
Somatostatin mRNA, The effect of *H. pylori* infection on the expression of somatostatin mRNA in the gastric antrum and corpus, **A45**
Somatostatin peptides, Role of SSTR2 receptors in the antisecretory effect of somatostatin in rat distal colon, **A48**
Spasm, 24-hour manometry is essential to diagnose diffuse oesophageal spasm, **A29**
Starvation, Colonic electrogenic Cl^- hypersecretion induced by starvation: purative involvement of basolateral K^+ conductance, **A9**
Stenting
Endoscopic stenting alone and stenting with radiotherapy in non-resectable cholangiocarcinoma, **A5**
Self-expanding covered Giaturco stent prevents tumour ingrowth in malignant dysphagia and seals anastomotic leak, **A28**
Will laparoscopic biliary bypass replace endoscopic stenting for malignant obstructive jaundice? **A4**
Stimulation, Can magnetic stimulation of trigeminal and vagal nerve afferents be used to assess brainstem and cortical swallowing pathways? **A66**
Strictures, Management of strictures after radiotherapy for treatment of oesphageal cancer, **A28**
Stroke, Nutritional intake inpatients admitted with acute stroke, **A68**
Sulphate-reducing bacteria, Incidence and activities of sulphate-reducing bacteria in patients with ulcerative colitis, **A63**
Swallowing, Can magnetic stimulation of trigeminal and vagal nerve afferents be used to assess brainstem and cortical swallowing pathways? **A66**

Technetium, Comparison of 99m technetium-HMPAO labelled leucocyte with 111 indium labelled granulocyte scanning and ultrasound in the diagnosis of intra-abdominal abscess, **A64**
Terminal ileal mucosa, Human terminal ileal mucosa expresses novel antimicrobial activity, **A64**
Thalidomide, The treatment of microsporidiosis with thalidomide, **A23**
Thrombophlebitis
Glyceryl trinitrate does not reduce thrombophlebitis during full intravenous nutrition through a peripheral vein, **A8**
Thrombophlebitis is established before occlusion of the vein occurs during infusion of intravenous nutrition, **A68**
Tinidazole, Patient factors that predict failure of omeprazole, clarithromycin and tinidazole to eradicate *Helicobacter pylori*, **A46**
TIPS, TIPS transplantation and surgical shunts, **A60**
TIPSS, **A32-33**
TIPSS shunt function, The role of duplex and colour flow Doppler ultrasonography in the assessment of TIPSS shunt function, **A20**
Tonsillectomy, Appendicectomy, tonsillectomy and risk of inflammatory bowel disease, **A25**
Total parenteral nutrition
Hypermanganesaemia and TPN: a cause of cholestasis?, **A7**
What is the effect of setting up a nutrition team on the provision of total parenteral nutrition in a teaching hospital? A clinical audit, **A36**
Trace metals, Assessment of gastric mucosal and mucus layer elemental trace metals in *H. pylori* gastritis using the novel technique of electron energy loss spectroscopy, **A10**
Transaminase, Liver histology in patients with hepatitis C and normal transaminase levels, **A2**
Transcytotic vesicular transport, Cyclosporin-A does not inhibit transcytotic vesicular transport, **A19**
Transjugular intrahepatic portosystemic stent-shunt, **A32-33**
Tuberculous enteritis, Is tuberculous enteritis important in African slim disease? **A64**
TUDCA, TUDCA treatment of gallstones in patients at high risk for surgery, **A47**
Tumour growth, Possible role of cell adhesion molecules in tumour growth and metastasis, **A17**
Tumour necrosis factor, Severe acute pancreatitis is associated with elevated serum soluble tumour necrosis factor receptor concentrations, **A41**

Ulcerative colitis
Cyclosporine for the treatment of acute steroid resistant ulcerative colitis, **A57**
Desulfovibrio spp: an aetiological agent common to ulcerative colitis and porcine proliferative enteropathy? **A56**
Direct measurement of rectal nitric oxide in ulcerative colitis, **A26**
Do patients with distal ulcerative colitis undergoing ileal pouch anal anastomosis have a better outcome than those patients with total colitis? **A24**
Effect of carbopol 934P on the clinical course of active ulcerative colitis, **A22**
High expression of iNOS in colonic mucosa in ulcerative colitis, **A56**
Incidence and activities of sulphate-reducing bacteria in patients with ulcerative colitis, **A63**
Is proximal demarcation of ulcerative colitis determined by the territory of the inferior mesenteric artery? **A26**
The perfect pelvic pouch for ulcerative colitis, **A24**
Use of a new enzyme linked PCR assay to show increased inducible nitric oxide synthase and interleukin 8 mRNA in ulcerative colitis, **A56**
Upper gastrointestinal haemorrhage
An audit of upper gastrointestinal haemorrhage: the effects of a protocol and staff education, **A34**
Auditing the audits of mortality from upper gastrointestinal haemorrhage: a plea for standardisation of methodology, **A34**
Pitfalls in auditing upper gastrointestinal bleeding, **A34**
Specialised bleeding units are the logical way forward in the management of upper gastrointestinal haemorrhage, **A34**
Urease activity, Effect of omeprazole therapy on *Helicobacter pylori*, urease activity and antral gastric histology in patients with duodenal ulcer, **A21**
Ursodeoxycholic acid
Effect of ursodeoxycholic acid on serum markers of fibrosis in primary biliary cirrhosis, **A30**
Efficacy of ursodeoxycholic acid alone and with chenodeoxycholic acid for cholesterol gallstone dissolution, **A42**
Surrogate markers of response in a trial of ursodeoxycholic acid and colchicine in primary biliary cirrhosis, **A30**

Variceal haemorrhage, Multicentre trial of octreotide versus injection sclerotherapy for acute variceal haemorrhage, **A38**
Variceal rebleeding, Preliminary results of a randomised, controlled trial of TIPSS and variceal band ligation in the prevention of variceal rebleeding in cirrhosis, **A33**
Veins
The basilic is the vein of choice for peripheral infusion of intravenous nutrition, **A68**
Thrombophlebitis is established before occlusion of the vein occurs during infusion of intravenous nutrition, **A68**
Vibrio cholerae, Bromelain protease inhibits intestinal secretion caused by *Escherichia coli* heat labile and heat stable toxins and *Vibrio cholerae* cholera toxin, **A55**
Viral infection, Importance of concomitant viral infection and treatment during late acute liver allograft rejection, **A31**
Vitamin D_3, 9-*cis* retinoic acid differentially modifies vitamin D_3 action in two human colorectal cancer cell lines, **A7**

Wheat peptide, Coeliac disease: measurement of a toxic wheat peptide in gluten-free foods, **A65**
Wilson's disease, Isolation of copper-binding proteins in bile canalicular membranes: a possible link to copper excretion and Wilson's disease, **A62**
